23
24 TO PLAINTIFF AND HIS ATTORNEYS OF RECORD:

25
26 PLEASE TAKE NOTICE that on July 21, 2008, defendant Detroit Diesel
27 Corporation ("Detroit Diesel") will move the court, pursuant to Fed.R.Civ.P. 12(b)(6), for a
28 dismissal of the complaint for failure to state a claim upon which relief can be granted.

1 Pursuant to Local Rule 7.1(d)(1) and the Court's chambers rules, no oral argument is set
2 to be held on this motion.

3
4 The motion to dismiss is based upon the following grounds:

- 5
- 6 1. This is the second lawsuit filed over damages to the two Freightliner tractors
7 at issue and this lawsuit is barred by principles of res judicata (or claim
8 preclusion).
 - 9
10 2. This is the second lawsuit filed over damages to the two Freightliner tractors
11 at issue and is barred by principles of collateral estoppel (or issue
12 preclusion).
 - 13
14 3. No negligence claim exists for purely economic loss.
 - 15
16 4. No breach of contract claim can be stated against Detroit Diesel because
17 plaintiff has no contract with Detroit Diesel.
 - 18
19 5. No cause of action for violations of the California Commercial Code can be
20 stated against Detroit Diesel, and no such cause of action exists.
 - 21
22 6. No claim of breach for either express warranty or implied warranty can be
23 stated against Detroit Diesel. Plaintiff lacks privity in order to sue Detroit
24 Diesel for breach of warranty and the claims are time barred. Plaintiff also
25 cannot establish the elements of these causes of action.
 - 26

27 Alternatively, Detroit Diesel will seek summary judgment pursuant to Fed.R.Civ.P.
28 56 on the grounds that this action is barred under principles of res judicata, collateral

1 estoppel and claim splitting in light of the prior action, Genchev v. Freightliner, USDC-
2 Southern Case No. 05-CV-2071.

3
4 This motion is based upon this notice, the memorandum of points and authorities,
5 the request for judicial notice and attached exhibits, the declaration of Lisa Kralik Hansen
6 and attached exhibits, all pleadings and records on file with the court, and any further
7 evidence as may be presented at the hearing of these motions.

PROOF OF SERVICE

I am employed in the County of Los Angeles, State of California. I am over the age of 18 and not a party to the within action. My business address is 444 South Flower Street, Suite 1100, Los Angeles, California 90071.

On June 13, 2008, I served the within document(s) described as:

NOTICE OF MOTION TO DISMISS PLAINTIFFS COMPLAINT FOR FAILURE TO STATE A CLAIM FOR RELIEF AND, IN THE ALTERNATIVE, MOTION FOR SUMMARY JUDGMENT

on the interested parties in this action as stated on the attached mailing list.

☒ (BY MAIL) By placing a true copy of the foregoing document(s) in a sealed envelope addressed as set forth on the attached mailing list. I placed each such envelope for collection and mailing following ordinary business practices. I am readily familiar with this Firm's practice for collection and processing of correspondence for mailing. Under that practice, the correspondence would be deposited with the United States Postal Service on that same day, with postage thereon fully prepaid at Los Angeles, California, in the ordinary course of business. I am aware that on motion of the party served, service is presumed invalid if postal cancellation date or postage meter date is more than one day after date of deposit for mailing in affidavit.

☐ (BY FAX) By transmitting a true copy of the foregoing document(s) via facsimile transmission from this Firm's sending facsimile machine, whose telephone number is (213) 533-5444, to each interested party at the facsimile machine telephone number(s) set forth on the attached mailing list. Said transmission(s) were completed on the aforesaid date at the time stated on the transmission record issued by this Firm's sending facsimile machine. Each such transmission was reported as complete and without error and a transmission report was properly issued by this Firm's sending facsimile machine for each interested party served. A true copy of each transmission report is attached to the office copy of this proof of service and will be provided upon request.

I certify that I am employed in the office of a member of the bar of this Court at whose direction the service was made.

Executed on June 13, 2008, at Los Angeles, California.

I declare under penalty of perjury that the foregoing is true and correct.

Liv Kirchoff

GRACE COSGROVE & SCHIRM
A PROFESSIONAL CORPORATION
444 S. FLOWER STREET, SUITE 1100
LOS ANGELES, CALIFORNIA 90071
(213) 533-5400

INTRODUCTION AND STATEMENT OF FACTS

On January 27, 2004, plaintiff Eugene Genchev purchased a 2004 Freightliner CL 120 tractor from Albuquerque Freightliner in New Mexico. (Ex. 1 to Hansen declaration) On March 2, 2005, Genchev purchased a 2005 Freightliner FLD tractor from Murrays Freightliner in Pennsylvania. (Ex. 2 to Hansen declaration) Both tractors allegedly contained engines which were manufactured by Detroit Diesel Corporation.

The complaint in this lawsuit alleges Detroit Diesel "warranted the engines of the vehicles," but "failed and refused to conform the vehicles to their warranties." (Complaint, para. 10, 12) No terms of the warranty are alleged. No copy of the warranty is attached to the complaint.

On October 11, 2005, Genchev filed a complaint against Freightliner asserting causes of action for breach of contract, violations of California Commercial Code, breach of warranties, fraud, negligent misrepresentation, negligence and unjust enrichment relating to the 2004 Freightliner CL120, entitled Eugene Genchev v. Freightliner LLC, USDC-Southern Case No. 05-CV-2071. After the case was removed to federal court, Genchev was later given leave to amend the complaint to add such claims relating to the 2005 Freightliner FLD. (Genchev v. Freightliner complaints, Ex. 1 and 2 to Request for Judicial Notice) Genchev v. Freightliner went to trial in March 2008, resulting in a verdict in favor of Genchev and against Freightliner. His claims of express warranty, implied warranty, fraud and negligent misrepresentation went to the jury. Genchev prevailed on each of these causes of action and was awarded \$38,908.62 in damages. (Verdict, Ex. 3 to Request for Judicial Notice) As the case was to then to proceed to the punitive damages phase, a settlement was reached between Genchev and Freightliner for \$60,000 and the Genchev v. Freightliner lawsuit was dismissed. (Minute Order, dated 3/24/08; Dismissal, Ex. 4 to Request for Judicial Notice)

Now, Genchev sues Detroit Diesel Corporation, the manufacturer of the diesel engines in his Freightliner tractors, alleging the same causes of action for breach of

1 contract, violation of California Commercial Code, breach of warranties and negligence.
 2 The same two tractors, the same causes of action and the same damages are sought in
 3 both lawsuits. Genchev has fully and finally litigated his claim for damages arising out of
 4 repairs made to these tractors and, as a matter of law, has no basis for a second lawsuit
 5 against Detroit Diesel. As a matter of law, this second lawsuit is barred by principles of
 6 res judicata and/or collateral estoppel.

7 In addition, Genchev's causes of action fail to state claims for relief against Detroit
 8 Diesel. He asserts a nonexistent claim of negligence when he can only present economic
 9 loss. He alleges breach of contract, but pleads no contract between himself and Detroit
 10 Diesel. There is none. Genchev asserts Commercial Code violations against Detroit
 11 Diesel, which did not sell the engines to Genchev. Such a cause of action also does not
 12 exist since it is duplicitous of breach of warranty. Moreover, the breach of warranty claims
 13 are nonexistent because (1) Genchev lacks privity with Detroit Diesel and (2) cannot state
 14 either an express warranty or an implied warranty was given by Detroit Diesel to him. His
 15 only warranty claim was against Freightliner, which has already been adjudicated. Thus,
 16 even if this lawsuit is not barred by res judicata and/or collateral estoppel, Genchev
 17 cannot assert any claim for relief against Detroit Diesel.

18 **I. PLAINTIFF'S ACTION AGAINST DETROIT DIESEL IS BARRED BY THE**
 19 **DOCTRINE OF RES JUDICATA**

20
 21 As the California Supreme Court stated in Mycogen Corp. v. Monsanto Co., 28 Cal.
 22 4th 888, 897 (2002):

23 "'Res judicata' describes the preclusive effect of a final judgment on the
 24 merits. Res judicata, or claim preclusion, prevents relitigation of the same
 25 cause of action in a second suit between the same parties or parties in
 26 privity with them. Collateral estoppel, or issue preclusion, 'precludes
 27 relitigation of issues argued and decided in prior proceedings.' [citation]
 28 Under the doctrine of res judicata, if a plaintiff prevails in an action, the
cause is merged into the judgment and may not be asserted in a
subsequent lawsuit; a judgment for the defendant serves as a bar to further
 litigation of the same cause of action.

"A clear and predictable res judicata doctrine promotes judicial economy. Under this doctrine, all claims based on the same cause of action must be decided in a single suit; if not brought initially, they may not be raised at a later date. 'Res judicata precludes piecemeal litigation by splitting a single cause of action or relitigation of the same cause of action on a different legal theory or for different relief.' [citation] A predictable doctrine of res judicata benefits both the parties and the courts because it 'seeks to curtail multiple litigation causing vexation and expense to the parties and wasted effort and expense in judicial administration.' (7 Witkin, Cal. Procedure (4th ed. 1997) Judgment, § 280, p. 820.)" [Emphasis added; citations omitted]

Such claim preclusion prevents relitigation of the "same cause of action." *Id.* at 896. The purpose of claim preclusion is to prevent multiple lawsuits over the same set of facts. *Id.* Genchev has separately sued Freightliner and Detroit Diesel for the same causes of action arising out of alleged nonconformities for the same two vehicles. (Compare the complaints in *Genchev v. Freightliner*, Ex. 1 and 2 to Request for Judicial Notice, to the complaint in this case.)

"In determining the validity of a plea of res judicata three questions are pertinent: Was the issue decided in the prior adjudication identical to the one presented in the action in question? Was there a final judgment on the merits? Was the party against whom the plea is asserted a party or in privity with a party to the prior adjudication?" *Zaragosa v. Craven*, 33 Cal.2d 315, 317 (1949). Here, there was a prior adjudication of contractual warranty claims involving the same two Freightliner tractors. There was a final judgment on the merits, and indeed Genchev won and was awarded damages.

A. Opportunity To Litigate Claims.

In *Panos v. Great Western Packing Co.*, 21 Cal.2d 636, 637 (1943), the California Supreme Court stated that "[t]he doctrine of res judicata rests upon the ground that the party to be affected, or some other with whom he is in privity, has litigated, or had an opportunity to litigate the same matter in a former action in a court of competent jurisdiction, and should not be permitted to litigate it again to the harassment and vexation of his opponent. Public policy and the interest of litigants alike require that there be an end

1 to litigation." [Emphasis added] The Supreme Court in Panos quoted 2 Freeman On
 2 Judgments §676, as follows:

3 "A prior judgment can operate as a complete bar to a second action only
 4 on the theory that it is a conclusive adjudication ... as to every matter that
 5 might be urged in support of the latter. ... Under such circumstances, in
 6 view of the rule and policy of the law which forbids a party to split his claim,
 7 the judgment is deemed to adjudicate, for purposes of the second action,
 8 not only every matter which was, but also every matter which might have
 9 been urged in support of the cause of action or claim in litigation. Where
 10 the cause of action in the second action is the same as that in the first
 11 action, a final judgment in the latter upon the merits is a complete bar to
 12 the maintenance of the second action'." Id. at 638 (emphasis added).

13 Genchev had every opportunity to litigate his contract and warranty claims against
 14 Detroit Diesel in the prior action. His depositions are replete with testimony about the
 15 engine problems, the Detroit Diesel warranties and the repairs at authorized Detroit Diesel
 16 repair facilities such as Valley Power Systems. (See Ex. 3, 4 to Hansen declaration) His
 17 decision to only sue Freightliner in the prior lawsuit is conclusive of this second lawsuit
 18 over alleged, but nonexistent, warranty claims for the same two tractors against one of the
 19 component part manufacturers.

20 B. Both Lawsuits Involve The Same Primary Right.

21 In Bay Cities Paving & Grading, Inc. v. Lawyers' Mut. Ins. Co., 5 Cal.4th 854, 860-
 22 61 (1993), the California Supreme Court held that two sources of payment for construction
 23 work – foreclosure of the mechanic's lien and serving a timely stop notice on the lenders –
 24 "arose from the same transaction – Bay Cities' work on the project – and were merely
 25 different remedies for nonpayment of the amount owed by Bay Cities. Thus, Bay Cities
 26 had a single right – the right to payment for its construction. The loss of that right as a
 27 result of the attorney's two omissions resulted in a single injury." Since there was only
 28 one primary right involved, there was only one cause of action. The primary right was "the
 right to be free of negligence by its attorney in connection with the particular debt
 collection for which he was retained." Id. at 860. Although the attorney allegedly
 breached that right in two ways, "it nevertheless remained a single right." Id. "Even where

1 there are multiple legal theories upon which recovery might be predicated, one injury
2 gives rise to only one claim for relief." Slater v. Blackwood, 15 Cal.3d 791, 795 (1975).

3 Two actions "constitute a single cause of action if they both affect the same primary
4 right." City of Simi Valley v. Superior Ct, 111 Cal.App.4th 1077, 1083 (2003) (citation
5 omitted). As the California Supreme Court reaffirmed in Mycogen, 28 Cal.4th at 904, the
6 primary right theory is invoked when a plaintiff "attempts to divide a primary right and
7 enforce it in two suits." "Res judicata precludes piecemeal litigation caused by splitting a
8 single cause of action or relitigating the same cause of action on a different legal theory."
9 City of Simi Valley, 111 Cal.App.4th at 1083. "A party cannot by negligence or design
10 withhold issues and litigate them in consecutive actions." Sutphin v. Speik, 15 Cal.2d 195,
11 202 (1940). That is exactly what Genchev has done in first suing Freightliner in the prior
12 action and now suing Detroit Diesel in this second lawsuit.

13 As explained in Sutphin, 15 Cal.2d at 202:

14 "If the matter was within the scope of the action, related to the subject-
15 matter and relevant to the issues, so that it *could* have been raised, the
16 judgment is conclusive on it despite the fact that it was not in fact expressly
17 pleaded or otherwise urged Hence, the rule is that the prior judgment
is res judicata on matters which were raised or could have been raised, on
matters litigated or litigable." [Emphasis in original.]

18 An issue that could have been raised means "it was relevant to or within the scope of the
19 action" and it makes "no difference whether it was actually pleaded, or whether evidence
20 was introduced thereon or not." Id. at 203.

21 One of the reasons for the rule against splitting a cause of action is that it is against
22 public policy to allow litigants to consume court time "by asserting claims which properly
23 should have been settled in some prior action." Wulfjen v. Dolton, 24 Cal.2d 891, 895
24 (1944). To hold otherwise "would open a 'Pandora's box' of evils that would upset all legal
25 principles for avoiding multiple litigation in settlement of but one fundamental claim for
26 appropriate redress." Id. at 896. "If the same primary right is involved in two actions,
27 judgment in the first bars consideration not only of all matters actually raised in the first
28

1 suit but also all matters which could have been raised." Eichman v. Fotomat Corp., 147
2 Cal.App.3d 1170, 1175 (1983).

3 "An injury is defined in part by reference to the set of facts, or transaction, from
4 which the injury arose." Federation of Hillside & Canyon Associations v. City of Los
5 Angeles, 126 Cal.App.4th 1180, 1203 (2004). The primary rights theory "incorporates to
6 some degree a transactional standard." Id.

7 Here, Genchev purchased the 2004 Freightliner and the 2005 Freightliner under
8 two purchase orders. (Invoices, Ex. 1, 2 to Hansen declaration) Those tractor purchases
9 included the warranties at issue in the prior case and in this case – both involving the
10 same tractors. Both of Genchev's lawsuits also involve the same problems with the
11 tractors, the same repairs, and the same down time or loss of use. Indeed, in the prior
12 action Genchev opposed Freightliner's motion in limine no. 2 to exclude repairs not falling
13 within the Freightliner warranty, arguing the entire repair history of the Freightliner tractors
14 was relevant. (Genchev's opposition to MIL No. 2, Ex. 5, p. 178:2-7, to Hansen
15 declaration)

16 "As far as its content is concerned, the primary right is simply the plaintiff's right to
17 be free from the particular injury suffered." Crowley v. Katleman, 8 Cal.4th 666, 681
18 (1994). Here, Genchev's primary right in both actions is properly working Freightliner
19 tractors. The "violation of a single primary right gives rise to but a single cause of action."
20 Crowley, 8 Cal.4th at 681-82. Further, the violation of a primary right gives rise to only
21 one cause of action, even though the plaintiff may have many forms of relief. Id.

22 Here, the "product" in both actions is the same – the Freightliner tractors. The
23 diesel engines are one component of that product. In this instance, the primary right is the
24 right to take a product free from defect. Thus, Genchev's primary right was to take the
25 Freightliner tractors free from defect. He does not get a separate lawsuit against each
26 manufacturer of each component part in the tractors. Rather, he was required to, but did
27 not, join Detroit Diesel in the prior lawsuit against Freightliner. Since the party against
28

1 whom the plea of res judicata is asserted is the same plaintiff in both actions, conclusive
 2 effect should be given to the previous judgment against Freightliner. Genchev's claims
 3 against Detroit Diesel have been merged into the prior judgment against Freightliner.
 4

5 C. Detroit Diesel Need Not Have Been A Party To The Prior Lawsuit.

6 The fact that Detroit Diesel was not a party to the prior action does not preclude
 7 application of res judicata. In Bernhard v. Bank of America Nat'l Trust & Savings Ass'n, 19
 8 Cal.2d 807 (1942), the California Supreme Court held that a party which was a stranger to
 9 the first action may assert res judicata in defense of a second action. There, Clara
 10 Sather, an elderly woman in the care of Charles Cook, authorized him to make drafts
 11 against her account at a Los Angeles bank because of her failing health. She later
 12 authorized the transfer of those funds to a bank in San Dimas under an account titled
 13 "Clara Sather by Charles Cook." Cook withdrew the balance of the account and deposited
 14 it into a bank account under his and his wife's name. After Clara Sather's death, the
 15 probate court settled the account, finding as part of its order that she had made a gift to
 16 Cook. The subsequent administratrix of the estate later brought an action against the
 17 bank for allowing the withdrawal of the funds without authorization. The bank asserted the
 18 affirmative defense of res judicata. The plaintiff argued the doctrine of res judicata did not
 19 apply because the defendant asserting the plea was not a party to the previous action or
 20 in privity with any party. The California Supreme Court found the "requirements of due
 21 process of law forbid the assertion of a plea of res judicata against a party unless he was
 22 bound by the earlier litigation in which the matter was decided . . . [but] [t]here is no
 23 compelling reason, however, for requiring that the party asserting the plea of res judicata
 24 must have been a party, or in privity with a party, to the earlier litigation." Id. at 812.
 25 "Many courts have abandoned the requirement of mutuality and confined the requirement
 26 of privity to the party against whom the plea of res judicata is asserted." Id. "The cases
 27 justify this . . . on the ground that it would be unjust to permit one who has had his day in
 28

1 court to reopen identical issues by merely switching adversaries." *Id.* at 813. Thus, Detroit
 2 Diesel can assert res judicata even though it was not a party to the prior lawsuit.

3 II. PLAINTIFF'S CLAIMS AGAINST DETROIT DIESEL ARE BARRED BY THE 4 DOCTRINE OF COLLATERAL ESTOPPEL

5 "The doctrine of collateral estoppel is one aspect of the concept of res judicata. In
 6 modern usage, however, the two terms have distinct meanings." *Lucido v. Superior*
 7 *Court*, 51 Cal.3d 335, 341 n. 3 (2000). Collateral estoppel involves issue preclusion,
 8 preventing a relitigation of issues already argued and decided. *Mycogen*, 28 Cal.4th at
 9 896. Collateral estoppel precludes the relitigation of an issue if: (1) the issue is identical to
 10 an issue decided in a prior proceeding; (2) the issue was actually litigated; (3) the issue
 11 was necessarily decided; (4) the decision in the prior proceeding is final and on the merits;
 12 and (5) the party against whom collateral estoppel is asserted was a party to the prior
 13 proceeding or in privity with a party to the prior proceeding. *Id.* at 341. "The 'identical
 14 issue' requirement addresses whether 'identical factual allegations' are at stake in the two
 15 proceedings" *Lucido*, 51 Cal.3d at 342. "An issue is actually litigated 'when [it] is
 16 properly raised, by the pleadings or otherwise, and is submitted for determination, and is
 17 determined" *People v. Sims*, 32 Cal.3d 468, 484 (1982).

18 As with res judicata, "a stranger to the prior judgment may assert defensive issue
 19 preclusion." *Campbell v. Scripps Bank*, 78 Cal.App.4th 1328, 1334 (2000), citing
 20 *Bernhard*, 19 Cal.2d at 813. As stated by the California Supreme Court in *Vandenberg v.*
 21 *Superior Court*, 21 Cal.4th 815, 828 (1999), "because the estoppel need not be mutual, it
 22 is not necessary that the earlier and later proceedings involve the identical parties or their
 23 privies. Only the party *against whom* the doctrine is invoked must be bound by the prior
 24 proceeding." In fact, "the collateral estoppel doctrine may allow one who was not a party
 25 to prior litigation to take advantage, in a later unrelated matter, of findings made against
 26 this current adversary in the earlier proceeding." *Id.* at 828-29. Thus, Detroit Diesel is
 27 entitled to assert issue preclusion based on the prior *Genchev v. Freightliner* action.
 28 "Collateral estoppel ... is intended to preserve the integrity of the judicial system, promote

1 judicial economy, and protect litigants from harassment by vexatious litigation."
2 Vandenberg, 21 Cal.4th at 829 (citations omitted). Genchev's second lawsuit over
3 warranty repairs to his tractors frustrates these purposes.

4 In Campbell, the California Court of Appeal held that the plaintiffs were collaterally
5 estopped from prosecuting an action against defendant Scripps Bank, which handled the
6 escrow for a real estate transaction which was the basis of a previous lawsuit. Campbell
7 sold certain real property to G. Milam Hall. Hall borrowed the majority of the purchase
8 money from John Sachs, on condition that Sach's note be secured by a first deed of trust
9 on the property. Campbell agreed to loan Hall the remainder of the purchase price as the
10 second trust deed. Campbell and Hall also entered into a subordination agreement
11 whereby Campbell agreed to subordinate his position in favor of other lenders in order to
12 facilitate development loans. When the development plans failed, the property was
13 foreclosed upon and there were insufficient funds to repay Campbell. In the first action,
14 Campbell sued Sachs to determine the priority between the two deeds of trust. The trial
15 court ruled that the parties intended the Sachs trust deed to have priority over the
16 Campbell trust deed and entered judgment accordingly. In the second action, Campbell
17 sued Scripps Bank under the theory that the Bank negligently closed escrow on loan
18 terms which did not comply with the terms of the subordination agreement and for breach
19 of contract in relation to the escrow. The Campbell court held that the issues in the
20 second matter were actually litigated in the prior action since the prior judgment
21 determined that the parties intended the Sachs deed of trust to have priority over the
22 Campbell deed of trust regardless of whether the loan complied with the terms of the
23 subordination agreement.

24 The issues to be determined in this action were decided in the prior action against
25 Freightliner. Genchev had a full trial on these issues, had ample opportunity to raise
26 issues and present evidence, after which the court did in fact render a decision on the
27 issues. See La Prade v. Department of Water & Power, 27 Cal.2d 47, 50 (1945). Thus,
28

the requirements of due process have been met. Dillard v. McKnight, 34 Cal.2d 209, 214-215 (1949). The plaintiff is one and the same in both actions. Accordingly, based on the issues clearly resolved in the prior action against Freightliner, Genchev is collaterally estopped from asserting the same issues in this second action against Detroit Diesel.

III. THE ECONOMIC LOSS RULE BARS THE NEGLIGENCE CAUSE OF ACTION

Genchev's fourth cause of action is for negligence, yet the only damages alleged in the complaint are not conforming the engines to the warranties. Genchev seeks only purely economic damages under his claims for breach of contract and breach of warranty. He cannot sue Detroit Diesel for pure economic loss under the tort of negligence. See Robinson Helicopter Co. v. Dana Corp., 34 Cal.4th 979, 988 (2004) ("economic loss rule requires a purchaser to recover in contract for purely economic loss due to disappointed expectations, unless he can demonstrate harm above and beyond a broken contractual promise"); Jimenez v. Superior Ct., 29 Cal.4th 473, 482-83 (2002) ("the law of contractual warranty governs damage to the product itself"); Aas v. Superior Ct., 24 Cal.4th 627 (2000); Erllich v. Menezes, 21 Cal.4th 543, 552 (1999); (duty found in cases to give rise to tort liability is "either completely independent of the contract or arises from conduct which is both intentional and intended to harm"); Seely v. White Motor Co., 63 Cal.2d 9, 18 (1965) ("even in actions for negligence, a manufacturer's liability is limited to damages for physical injuries and there is no recovery for economic loss alone"). As stated in Aas, 24 Cal.4th at 643, "A person may not ordinarily recover in tort for the breach of duties that merely restate contractual obligations." In Erllich, no tort damages were allowed for negligent construction of a home because the breach "did not cause physical injury." Erllich, 21 Cal.4th at 557. The recoverable damages for defective construction in Erllich were limited to the cost of repairing the home, lost use or relocation expenses, or diminution in value. Id. at 561.

Similarly, here, Genchev has no recoverable tort damages arising from any duty separate and apart from the Detroit Diesel warranty. Economic loss means damages for

1 cost of repair and replacement of the defective product (or parts) or consequent loss of
 2 profits. See Fieldstone Co. v. Briggs Plumbing Products, Inc., 54 Cal.App.4th 357, 364
 3 (1997) (citations omitted). Fieldstone held that rusting and chipping sinks due to spot
 4 welding and insufficient coating did not constitute damage to "other property" for purposes
 5 of tort recovery. Id. at 364-67. Furthermore, "[w]hen a product injures only itself the
 6 reasons for imposing a tort duty are weak and those for leaving the party to its contractual
 7 remedies are strong." East River S.S. Corp. v. Transamerica Delaval, 476 U.S. 858, 871
 8 (1986). Thus, Genchev has no claim for negligence.

9 10 **IV. NO BREACH OF CONTRACT CLAIM EXISTS**

11 The first cause of action for breach of contract has no merit. Genchev did not
 12 purchase the tractors from Detroit Diesel and he has neither a written contract nor an oral
 13 contract with Detroit Diesel. Under California law, the elements of breach of contract are:
 14 (1) the contract; (2) plaintiff's performance or excuse for nonperformance; (3) defendant's
 15 breach and (4) the resulting damage to plaintiff. Reichert v. General Ins. Co., 68 Cal.2d
 16 822, 830 (1968). "Alleging breach of contract should not be construed as including breach
 17 of warranty theories." Mandeville Onoda Cement Co., 67 Fed.Appx. 417, 418 (9th Cir.
 18 2003).

19 While Genchev asserts in paragraph 10 of the complaint that Detroit Diesel
 20 "expressly warranted the engines," he fails to plead any terms of such warranty or attach
 21 the warranty to the complaint. He only further concludes the tractors have
 22 "nonconformities" and Detroit Diesel "has failed and refused to conform the vehicles to
 23 their warranties." Such claims fail to state a cause of action for breach of contract. Where
 24 "the warrantor repeatedly fails to correct the defect as promised, it is liable for the breach
 25 of that promise as a breach of warranty." Seely, 63 Cal.2d at 14. Here, there simply is no
 26 contract between Genchev and Detroit Diesel.

V. NO CLAIM FOR COMMERCIAL CODE VIOLATIONS EXISTS

Detroit Diesel is a manufacturer of diesel engines. Detroit Diesel did not sell either the engines or the tractors to Genchev. The Commercial Code only applies to sellers of goods, defined as "a person who sells or contracts to sell goods." Commercial Code §2103(d). A "sale" is "the passing of title from the seller to the buyer for a price." Section 2106(a). This is an action against a manufacturer of a component of two Freightliner tractors for consequential damages from the alleged breach of warranty, not a claim for remedies under the Commercial Code against the seller of the trucks.

VI. NO BREACH OF EXPRESS WARRANTY CLAIM EXISTS

"In order to plead a cause of action for breach of express warranty, one must allege the exact terms of the warranty, plaintiff's reasonable reliance thereon, and a breach of that warranty which proximately causes plaintiff injury." Williams v. Beechnut Nutrition Corp., 185 Cal.App.3d 135, 142 (1986). Genchev fails to allege "the exact terms of the warranty" at issue. An "expression of opinion or commendation of the goods does not create an express warranty." Keith v. Buchanon, 173 Cal.App.3d 13, 19 (1985). Fundamentally, Genchev has failed to plead an express warranty.

"As a general rule, privity of contract is a required element of an express breach of warranty cause of action." Fieldstone Co. v. Briggs Plumbing Products, Inc., 54 Cal.App.4th 357, 369 n. 10 (1997). The only noted exception is where the decision to purchase the product was made in reliance on written representations in "labels or advertising material." Id. See also, Burr v. Sherwin Williams Co., 42 Cal.2d 682, 696-97 (1954). No representation in any label or advertising materials is alleged in order to give rise to any exception to the privity requirement. Genchev has no privity with Detroit Diesel.

Breach of warranty claims asserted by a consumer such as Genchev against a component manufacturer such as Detroit Diesel have been rejected. See Avery v. Mapco Gas Products, Inc., 848 F.Supp.1388, 1396 (N.D. Ind. 1991); Zepik v. Ceeco Pool &

1 Supply, Inc., 637 F.Supp. 444, 450-51 (N.D. Ind. 1986), aff'd in part and vacated on other
 2 grounds, 856 F.2d 936 (7th Cir. 1988). In Avery, owners of a home sued Honeywell, the
 3 manufacturer of the valve on a furnace which exploded. Breach of warranty was one of
 4 the claims asserted against Honeywell. Summary judgment for Honeywell on the breach
 5 of warranty claim was granted because the homeowners lacked privity with Honeywell
 6 (and the claim was barred by the statute of limitations). See also, Zepik v. Ceeco Pool &
 7 Supply, 118 F.R.D. 455 (N.D. Ind. 1987) (also rejected express warranty claim due to no
 8 evidence of contract between consumer and component part defendant).

9 The statute of limitations for breach of warranty is four years. See Cal. Commercial
 10 Code §2725. Genchev purchased the 2004 Freightliner on January 27, 2004 and
 11 purchased the 2005 Freightliner on March 2, 2005. Thus, even if he had privity with
 12 Detroit Diesel (which he does not), his express warranty claim is time barred.

13 If the analysis goes beyond lack of privity and the statute of limitations, Genchev
 14 has failed to plead the elements of an express warranty claim. Three steps must be
 15 examined to determine if an express warranty exists: (1) whether the seller's statement
 16 constitutes an "affirmation of fact or promise" or "description of the goods" or whether the
 17 statement is merely an opinion or commendation of the goods; (2) whether the statement
 18 was "part of the basis of the bargain"; and (3) whether the warranty was breached. Keith,
 19 173 Cal.App.3d at 19-20. In Keith, the Court of Appeal reversed the finding of no express
 20 warranty. The boat purchased was described in sales literature as "a picture of sure-
 21 footed seaworthiness" and "a carefully well-equipped and very seaworthy vessel"; the
 22 seller's representative was aware the buyer was looking for a boat for long distance
 23 ocean-going cruises; nothing indicated the boat was experimental in nature and one sales
 24 brochure assured buyers the boat was commenced "after years of careful testing." The
 25 statements in the sales brochures in Keith were held "specific and unequivocal in
 26 asserting that the vessel is seaworthy," constituting affirmations of fact relating to the
 27 quality and condition of the boat. Id. No such statements exist in this case.

28

Here, Genchev merely alleges he purchased the 2005 Freightliner tractor "from an authorized Detroit Diesel distributor." (Complaint, para. 7) He admittedly did not purchase the tractors from Detroit Diesel, a component part manufacturer. The purchase orders show Genchev purchased the 2004 Freightliner from Albuquerque Freightliner in New Mexico and purchased the 2005 Freightliner from Murrays Freightliner in Pennsylvania. (Purchase Orders, Ex. 1, 2 to Hansen declaration) Neither purchase order contains any representations made by Detroit Diesel, and Genchev has not alleged the rudimentary elements of a breach of express warranty claim against Detroit Diesel – and cannot. Neither his complaint nor the documents referenced in his complaint show he has privity of contract with Detroit Diesel.¹

VII. NO BREACH OF IMPLIED WARRANTY CAUSE OF ACTION CAN BE STATED

Paragraph 22 of the complaint alleges "implied warranties of fitness and merchantability were implied by the sale of the Vehicles to Plaintiff." However, Detroit Diesel did not sell the vehicle to Genchev. These causes of action "sound in contract." See Wyatt v. Cadillac Motor Car Division, 145 Cal.App.2d 423, 426 (1956). The applicable statute of limitations is two years and begins to run when the buyer became aware of unsatisfactory performance. Id. at 426-27; Simon Hardware Co. v. Pacific Tire & Rubber Co., 199 Cal.App.2d 616, 618 (1962) (two year statute of limitations applies to implied warranty). Thus, Genchev only had two years after purchase to sue Detroit Diesel. It is more than two years since he purchased both tractors.

"Privity of contract is a prerequisite in California for recovery on a theory of breach of implied warranties of fitness and merchantability." All West Electronics v. M-B-W, 64

¹ Should Genchev be able to plead a claim for breach of express warranty and survive this motion, there may be choice of law issues that arise. The warranty was likely issued by Detroit Diesel with its component engines in Michigan, and Michigan law may apply if this case goes forward; Genchev purchased the tractors in New Mexico and Pennsylvania; and repairs were not confined to California. (See Exs. 1-4 to Hansen declaration.) At this time, the choice of law issue is premature but is not waived by Detroit Diesel.

1 Cal.App.4th 717, 725 (1998). "Vertical privity is a prerequisite in California for recovery on
 2 a theory of breach of the implied warranties of fitness and merchantability." Fieldstone
 3 Co. v. Briggs Plumbing Products, Inc., 54 Cal.App.4th 357, 371 (1997); U.S. Roofing, Inc.
 4 v. Credit Alliance Corp., 228 Cal.App.3d 1431, 1441 (1991).

5 In Parsley v. Monaco Coach Corp., 327 F.Supp.2d 797, 803-05 (W.D. Mich. 2004),
 6 the court rejected a buyer's claim of breach of implied warranty against the component
 7 part manufacturer of a mobile home based on the lack of privity. Since California, like
 8 Michigan law in Parsley requires privity, Parsley is direct support for Detroit Diesel's
 9 position that Genchev has no claim for breach of implied (or express) warranty – "no
 10 implied warranties between a consumer and a remote manufacturer arise by way of state
 11 law, they are not created under the [Detroit Diesel] limited warranty." Id. at 805.² See
 12 also, Auto Owners Ins. Co. v. Chrysler Corp., 129 Mich. App. 38, 43, 341 N.W. 2d 223
 13 (1983) (purchaser of motorhome had no claim for breach of warranty against
 14 manufacturer of chassis); Mt. Holly Ski Area v. U.S. Elec. Motors, 666 F. Supp. 115, 119-
 15 20 (E.D. Mich. 1987) (privity must be between "the plaintiff and the defendant"). There is
 16 no privity between Genchev and Detroit Diesel, which is fatal to his breach of warranty
 17 claims.

18
 19 A. Implied Warranty of Merchantability.

20 To maintain a claim for breach of implied warranty of merchantability, the seller's
 21 statements must become a basis of the bargain. Hauter v. Zogarts, 14 Cal.3d 104, 114
 22 (1975). This complaint contains no statement by Detroit Diesel that formed the basis of
 23

24 _____
 25 ² Although the privity argument in Parsley was only asserted in connection with the implied
 26 warranty claim, it equally applies to Genchev's express warranty claim against Detroit
 27 Diesel in this case. As discussed supra, Detroit Diesel has also asserted lack of privity on
 28 the express indemnity claim. Further, since California and Michigan law lead to the same
 conclusion, there is no conflict of law requiring the court to apply California's governmental
 interest analysis for conflicts of law.

1 Genchev's purchase of either Freightliner tractors. Detroit Diesel was not the seller of the
2 vehicles to Genchev.

3
4 B. Implied Warranty of Fitness For A Particular Purpose.

5 An implied warranty of fitness for a particular purpose only arises when: (1) the
6 purchaser at the time of the contracting intends to use the goods for a particular purpose;
7 (2) the seller at the time of contracting has reason to know of this particular purpose; (3)
8 the buyer relies on the seller's skill or judgment to select or furnish goods suitable for the
9 particular purpose; and (4) the seller at the time of contracting has reason to know that the
10 buyer is relying on such skill and judgment. Keith, 173 Cal.App.3d at 25.

11 "The reliance elements are important to the consideration of whether an implied
12 warranty of fitness for a particular purpose exists." Keith, 173 Cal.App.3d at 25. The
13 "major question" is "the reliance by the buyer upon the skill and judgment of the seller to
14 select an article suitable for his needs." Id. In Keith, no implied warranty claim existed
15 because plaintiff had extensive experience with sailboats and had developed precise
16 specifications regarding the type of boat wanted; he looked at a number of different boats
17 and reviewed their advertising literature; and he had friends look at the boat before
18 making a final decision. The Court of Appeal held substantial evidence supported the trial
19 court's finding the buyer did not rely on the skill and judgment of the seller in selection of
20 the boat in question.

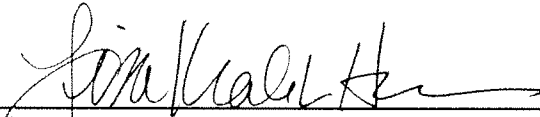

21 The reliance elements cannot be satisfied in this case – there is no allegation
22 Genchev relied on Detroit Diesel's skill or judgment in selecting or furnishing the tractors.
23 Detroit Diesel was not a party to the purchase orders or to the manufacturer's warranty for
24 the Freightliner tractors.

1 **CONCLUSION**

2 Plaintiff does not get a second lawsuit over the same damage and lost time for his
3 tractors for which he previously sued Freightliner and won. This lawsuit is barred under
4 the principles of res judicata, collateral estoppel and claim splitting. The causes of action
5 asserted are improper and nonexistent. As a matter of law, this entire lawsuit should be
6 dismissed.

PROOF OF SERVICE

I am employed in the County of Los Angeles, State of California. I am over the age of 18 and not a party to the within action. My business address is 444 South Flower Street, Suite 1100, Los Angeles, California 90071.

On June 13, 2008, I served the within document(s) described as:

MEMORANDUM OF POINTS AND AUTHORITIES SUPPORTING MOTION TO DISMISS AND, IN THE ALTERNATIVE, MOTION FOR SUMMARY JUDGMENT

on the interested parties in this action as stated on the attached mailing list.

☒ (BY MAIL) By placing a true copy of the foregoing document(s) in a sealed envelope addressed as set forth on the attached mailing list. I placed each such envelope for collection and mailing following ordinary business practices. I am readily familiar with this Firm's practice for collection and processing of correspondence for mailing. Under that practice, the correspondence would be deposited with the United States Postal Service on that same day, with postage thereon fully prepaid at Los Angeles, California, in the ordinary course of business. I am aware that on motion of the party served, service is presumed invalid if postal cancellation date or postage meter date is more than one day after date of deposit for mailing in affidavit.

☐ (BY FAX) By transmitting a true copy of the foregoing document(s) via facsimile transmission from this Firm's sending facsimile machine, whose telephone number is (213) 533-5444, to each interested party at the facsimile machine telephone number(s) set forth on the attached mailing list. Said transmission(s) were completed on the aforesaid date at the time stated on the transmission record issued by this Firm's sending facsimile machine. Each such transmission was reported as complete and without error and a transmission report was properly issued by this Firm's sending facsimile machine for each interested party served. A true copy of each transmission report is attached to the office copy of this proof of service and will be provided upon request.

I certify that I am employed in the office of a member of the bar of this Court at whose direction the service was made.

Executed on June 13, 2008, at Los Angeles, California.

I declare under penalty of perjury that the foregoing is true and correct.

**DECLARATION OF LISA KRALIK
HANSEN IN SUPPORT OF MOTION TO
DISMISS AND, IN THE ALTERNATIVE,
MOTION FOR SUMMARY JUDGMENT:**

**[FILED CONCURRENTLY WITH NOTICE OF
MOTION TO DISMISS; MEMORANDUM OF
POINTS AND AUTHORITIES; REQUEST FOR
JUDICIAL NOTICE]**

**[NO ORAL ARGUMENT PURSUANT
TO LOCAL RULE 7.1(d)(1)]**

(Complaint filed: 4/18/08)

DECLARATION OF LISA KRALIK HANSEN

I, Lisa Kralik Hansen, declare as follows:

I am an attorney at law duly licensed to practice before this Court. I am a member of the law firm of Grace, Cosgrove & Schirm, counsel of record for defendant Detroit Diesel Corporation in this action. I have personal knowledge of the facts set forth in this Declaration and, if called as a witness, could and would testify competently to such facts under oath.

1. Attached hereto as Exhibit 1 is a true and correct copy of the purchase order for the 2004 Freightliner, marked as Exhibit 1 to the deposition of Eugene Genchev in his prior lawsuit.

2. Attached hereto as Exhibit 2 is a true and correct copy of the purchase order for the 2005 Freightliner, marked as Exhibit 38 to the deposition of Eugene Genchev in his prior lawsuit.

3. Attached hereto as Exhibit 3 are true and correct copies of pertinent portions of the deposition, Volume 1, of Eugene Genchev taken in his prior action on February 8, 2007, and the corresponding deposition exhibits.

4. Attached hereto as Exhibit 4 are true and correct copies of pertinent portions of the deposition, Volume II, of Eugene Genchev taken in his prior action on March 9, 2007, and the corresponding deposition exhibits.

5. Attached hereto as Exhibit 5 is a true and correct copy of Genchev's Opposition To Freightliner's Motion in Limine No. 2 in the prior action, dated January 14, 2008.

Executed on this 12th day of June, 2008, at Los Angeles, California.

I declare under penalty of perjury under the laws of the United States that the foregoing is true and correct.

Lisa Kralik Hansen

PROOF OF SERVICE

I am employed in the County of Los Angeles, State of California. I am over the age of 18 and not a party to the within action. My business address is 444 South Flower Street, Suite 1100, Los Angeles, California 90071.

On June 13, 2008, I served the within document(s) described as:

DECLARATION OF LISA KRALIK HANSEN IN SUPPORT OF MOTION TO DISMISS AND, IN THE ALTERNATIVE, MOTION FOR SUMMARY JUDGMENT; EXHIBITS

on the interested parties in this action as stated on the attached mailing list.

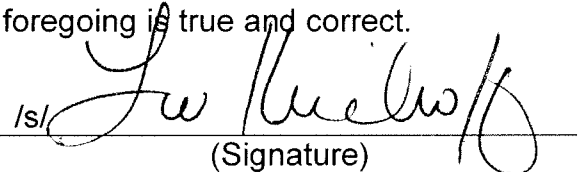

- ☒ (BY MAIL) By placing a true copy of the foregoing document(s) in a sealed envelope addressed as set forth on the attached mailing list. I placed each such envelope for collection and mailing following ordinary business practices. I am readily familiar with this Firm's practice for collection and processing of correspondence for mailing. Under that practice, the correspondence would be deposited with the United States Postal Service on that same day, with postage thereon fully prepaid at Los Angeles, California, in the ordinary course of business. I am aware that on motion of the party served, service is presumed invalid if postal cancellation date or postage meter date is more than one day after date of deposit for mailing in affidavit.
- ☐ (BY FAX) By transmitting a true copy of the foregoing document(s) via facsimile transmission from this Firm's sending facsimile machine, whose telephone number is (213) 533-5444, to each interested party at the facsimile machine telephone number(s) set forth on the attached mailing list. Said transmission(s) were completed on the aforesaid date at the time stated on the transmission record issued by this Firm's sending facsimile machine. Each such transmission was reported as complete and without error and a transmission report was properly issued by this Firm's sending facsimile machine for each interested party served. A true copy of each transmission report is attached to the office copy of this proof of service and will be provided upon request.

I certify that I am employed in the office of a member of the bar of this Court at whose direction the service was made.

Executed on June 13, 2008, at Los Angeles, California.

I declare under penalty of perjury that the foregoing is true and correct.

Liv Kirchoff

1 understanding that it came with a separate warranty for
2 the transmission that was administered through
3 Freightliner?

4 MR. JAFFE: Objection. Calls for a legal
5 conclusion.

6 THE WITNESS: No, I didn't know that.

7 BY MR. MORENO:

8 Q. As you sit here today, do you know that you
9 have a separate warranty for the transmissions on both
10 tractors that are administered through Freightliner?

11 MR. JAFFE: Objection. Calls for a legal
12 conclusion.

13 You can answer.

14 THE WITNESS: I know that Detroit is taking
15 care of the engine, but I don't know about separate
16 transmission warranty. It's written in the Freightliner
17 warranty booklet. So I assume Freightliner is taking
18 care of the transmission, everything else except the
19 engine.

20 BY MR. MORENO:

21 Q. You understand that you have not sued Detroit
22 Diesel in this case, correct?

23 MR. JAFFE: Objection. Calls for a legal
24 conclusion.

25 THE WITNESS: I understand that, yeah.

Genchev vs. Freightliner, LLC, et al.
Case No. 05-CV-2071-W (JMA)

Eugene Genchev, Volume I
February 8, 2007

1 MR. JAFFE: Objection. Lack of foundation.
2 Calls for speculation.

3 THE WITNESS: No, I have not.

4 BY MR. MORENO:

5 Q. Okay. Go ahead and turn to the next page.

6 "Upon PDI check engine light on, checked for codes,
7 found active code for relative humidity sensor." Do you
8 know what the relative humidity sensor is?

9 A. No, I don't.

10 Q. "Found center broken, replaced sensor,
11 verified repairs." Did I read that correctly?

12 A. Yes, you did.

13 Q. As you've owned the '04 tractor, are you aware
14 of any additional repairs to the humidity sensor during
15 the time that Genchev has owned the unit?

16 MR. JAFFE: Objection. Calls for an expert
17 opinion.

18 THE WITNESS: There's all kind of sensors
19 being repaired. I don't know if one of those is the
20 humidity sensor, but there's a lot of sensor being
21 replaced and repaired after that.

22 BY MR. MORENO:

23 Q. Fair enough. You see in the upper left-hand
24 corner where it says Detroit Diesel Warranty?

25 A. Yes, I do.

1 Q. And you have a separate warranty for your
2 engine, correct?

3 MR. JAFFE: Objection. Calls for a legal
4 conclusion.

5 THE WITNESS: Yes.

6 BY MR. MORENO:

7 Q. All right. Let's go to the next page. It
8 says miscellaneous repairs for a dollar and 33 cents
9 without a description. Actually, it's a bushing pipe,
10 and it looks like a hex nut. Do you see where I read
11 that?

12 A. Yes.

13 Q. Okay. Let's go to the next page. Before I
14 ask you questions about the next page, have you ever
15 seen in your travels across the country conventional
16 tractors being transported for delivery to, like, a
17 dealership?

18 A. Yes, I have.

19 Q. And how do they transport them?

20 A. Up on top of the other, like there's a -- the
21 other tractor step and --

22 Q. They piggy back?

23 A. Yeah, piggy back.

24 Q. And when they piggy back them, they -- have
25 you noticed that they remove the fairings?

1 Q. Right before the lunch hour we were getting
2 ready to talk about the next repair visit that I have a
3 document for --

4 A. Okay.

5 Q. -- which is the May 18th, 2005, Los Angeles
6 Freightliner F, as in Frank, S, as in Sam, 102409.
7 Before I ask you any questions about this repair visit,
8 are there any other repairs that we haven't talked about
9 up until this May 18th, '05, point after the
10 February 24th, '05, body repair?

11 A. Not after February but I just discovered a
12 couple of January.

13 Q. Okay. Show me the January '05 that you
14 discovered during the lunch break. This is a claim
15 history -- the witness has handed me a claim history
16 probably printed out for you by one of the dealerships,
17 correct?

18 A. Correct. It could be Detroit. That's why you
19 don't have it. It could be Detroit claim on the engine.
20 I am not sure which one exactly if it's Freightliner or
21 Detroit, but over there I saw 18 -- what was the 20th
22 and 28th of January there was a fuel leak and some other
23 leaks they work on.

24 Q. The ones you're referring to is -- are you
25 referring to January 31st, 2005?

1 A. And the one before that.

2 Q. And the January 20th, 2005?

3 A. Correct.

4 (Exhibit 9 was marked for identification.)

5 BY MR. MORENO:

6 Q. Okay. It says Valley Power Systems, San Diego
7 for both of those entries. Let's mark this as 9. It
8 says Valley Power Systems for both the January -- we've
9 marked this as Exhibit 9. It says Valley Power for the
10 January 31st, '05, and January 20th, '05. And the
11 mileage for those repairs, according to this claim
12 history, were 83620 and 89635, and you're correct,
13 Mr. Genchev, that this is not in the Freightliner
14 history because it's work not under the Freightliner
15 warranty, which is what you thought may have been the
16 case when you reviewed the document, true?

17 A. True.

18 MR. JAFFE: Objection to the extent it calls
19 for a legal conclusion.

20 BY MR. MORENO:

21 Q. Did you take the unit to a Valley Power
22 Systems somewhere here in San Diego on or about
23 January 20th or January 31st, '05, because if you
24 have --

25 A. Yes, I did.

1 mentioned except the last one.

2 (Exhibit 10 was marked for identification.)

3 BY MR. MORENO:

4 Q. Okay. I'll mark as Exhibit 10 the Valley
5 Power Systems 1/20/05 RO open date, RO invoice date
6 January 21st, 2005, and it shows that on January 20th of
7 '05 with 83,620 miles you presented the unit to Valley
8 Power Systems, correct?

9 A. Correct.

10 Q. And you understand that Valley Power Systems
11 is not -- let me ask you this. Do you know whether
12 Valley Power Systems is a Freightliner authorized repair
13 facility?

14 A. I know for sure that it's Detroit authorized
15 repair facility since the engine problem was addressed
16 that was the best place to take the truck to.

17 Q. So you know it's a Detroit facility. You have
18 a Detroit engine. So you could go there and get work
19 done under the separate Detroit warranty. Fair
20 statement?

21 MR. JAFFE: Objection to the extent it calls
22 for a legal conclusion.

23 You can answer.

24 THE WITNESS: I assume so. I don't know the
25 bureaucratic channels, but I know the Detroit is

1 covering Detroit. Freightliner, the rest of it.

2 BY MR. MORENO:

3 Q. Because we went through this earlier, you
4 understand you have a separate warranty for Detroit?

5 A. Sure.

6 Q. And there are some facilities like LA
7 Freightliner that can do Detroit and Freightliner work,
8 correct?

9 A. I understand.

10 Q. And there's some places that may not be
11 Freightliner, but can do Detroit work under Detroit
12 warranty?

13 A. Correct. Valley is one of those places.

14 Q. All right. The complaint says, "Oil leaks,
15 coolant leaks, and fuel leak. Customer leaving Chicago
16 5:00 p.m. Friday. Primary cause fuel union leaking."
17 Did they -- did Valley Power Systems do work on your
18 tractor to repair this fuel leak at the union?

19 A. Yes, they did.

20 Q. And did this leak ever come back or was it
21 fixed for good?

22 A. It was fixed, but they did this work one day
23 or two days after the people in Albuquerque attempt to
24 fix it that they -- the tractor continued to leak. So
25 one of these times I told you I stopped by Albuquerque

1 being done under the Detroit warranty at no cost to you?

2 A. I know it's not cost, but what warranty was --
3 my understanding was since it's a new arrangement in
4 Detroit, they probably didn't have the proper fitting
5 and they attempt to fix -- stop the leak, and they said
6 they did it, but eventually the leak continued, and I
7 took it to Valley where they fixed.

8 Q. Valley fixed it for good. True statement?

9 A. Yes.

10 Q. Did you pay anything for the work referenced
11 on Exhibit 10?

12 A. No, I did not.

13 Q. Okay. Any other work or presentations of your
14 truck to a facility after the body repair at LA
15 Freightliner and before we get to Exhibit 8?

16 A. No.

17 Q. Okay. Let's go to Exhibit 8. Go ahead and
18 put your papers inside so you don't confuse that stuff.

19 I'm handing you Exhibit 8, which is a
20 collection of repair documents for the 5/18/05 repair,
21 and I'll staple them together so we don't mix anything
22 up. Did you present the truck to Los Angeles
23 Freightliner on or about May 18th, 2005?

24 A. One of my drivers did.

25 Q. Do you know which driver?

1 Q. So it was worked on but not fixed, correct?

2 A. No, they refused to work on it because they
3 stated Detroit Diesel doesn't allow warranty work at
4 this point. They said it's okay to leak basically.
5 It's right there in the documentation.

6 Q. Detroit Diesel wouldn't approve work for this
7 engine leak?

8 A. I assume so. That's what the documentation
9 states.

10 Q. What documentation are you referring to?
11 Right now you're looking at Exhibit 8, correct?

12 A. We don't have it here, but I have it myself
13 somewhere.

14 Q. What do you have somewhere that tells you that
15 Detroit Diesel didn't want to cover the work?

16 You know, it says right here. "Check as per
17 DDE new letter and found that oil leak on engine does
18 not meet the conditions for a fix at this time." Is
19 that what you're talking about?

20 A. That's the one.

21 Q. So you paid for this work, 55.90?

22 A. I paid for this, yeah. I guess for them only
23 to look and tell me it's okay to leak.

24 Q. Turn a couple pages where it starts "check
25 engine," I think that's supposed to be light on, "losing

1 coolant, active codes, engine noise, possible warr,"
2 w-a-r-r. What was the unit -- what was the complaint
3 with regard to this particular item? What was the unit
4 doing?

5 A. Everything you read: Losing coolant, active
6 engine, no lights come on and off.

7 Q. On the dash?

8 A. On the dash all the time, check engine, and
9 then everything they describe, air leak too, plenty of
10 things.

11 Q. Were you told that they installed a new Delta
12 P sensor on your unit?

13 A. Do I tell them?

14 Q. Were you told that a Delta P sensor was
15 installed on your truck? Yes or no?

16 A. I don't know. It might be.

17 Q. After -- what LA Freightliner facility is
18 this?

19 A. Fontana.

20 Q. After they performed the work that you and I
21 are looking at on part of Exhibit 8 for the losing
22 coolant and check engine lights --

23 A. Uh-huh.

24 Q. -- did they repair the unit such that they
25 eliminated the engine coolant loss?

1 A. No, they did not. It's leaking up to this
2 day.

3 Q. What about the check engine light coming on,
4 did that ever come on again?

5 A. Again after this repair, yes.

6 Q. Did it go off for a while after this repair?

7 A. Yes.

8 Q. But eventually came back as a problem?

9 A. Yes, for the next year.

10 Q. It came back a year later.

11 A. No, it was constant problem, constantly
12 recurring problem.

13 Q. How soon after this repair did the engine
14 light come back on, check engine light?

15 A. Check engine light it was a month. It start
16 coming on and off again.

17 Q. Turn a couple pages "losing air pressure when
18 stops, have to build up air pressure, check and advise,
19 need EST, V-Pod leaking air."

20 What was leaking? Your air bags?

21 A. No, it's air chambers. It's constantly losing
22 air pressure.

23 Q. Air chambers for the brakes?

24 A. Yes.

25 Q. And you knew you were losing pressure because

1 Q. I have another set of invoices coming up dated
2 5/25/05.

3 A. It could be there. That was a long visit. It
4 was like ten days in the shop. So they probably
5 combined those invoices.

6 Q. So Exhibit 8 says 5/18/05 and a complete date
7 of 5/24/05, and then the next invoices coming up start
8 at 5/25/05, but it's your understanding that it was
9 there that entire time?

10 A. Pretty much, yeah.

11 Q. Okay. All right. So of Exhibit 8 all you
12 paid was 55.90?

13 A. Correct.

14 Q. Okay.

15 A. Do you know want to know the reason why it
16 stayed so long? Because in the brake chamber and all
17 that stuff they call me. They said who's going to pay
18 for this. I said what do you mean who's going to pay.
19 This is not warranty. And I told him I just got granted
20 this extended 24 months, 24,000 -- 240,000 miles
21 warranty by Detroit.

22 Q. By Freightliner?

23 A. By Freightliner. They said no, no such thing,
24 who told you that. Then the unit is in the middle of
25 the shop. They ask me to authorize the repair. I am

Genchev vs. Freightliner, LLC, et al.
Case No. 05-CV-2071-W (JMA)

Eugene Genchev, Volume I
February 8, 2007

1 damaged.

2 Q. Right or left side?

3 A. Driver's side. I am not 100 percent sure, but
4 this is totally unrelated to the vibration so we forgot
5 about which one.

6 Q. Okay. And you paid the 310.40, correct?

7 A. It was \$404 or something. Oh, okay. This was
8 the installation. So the whole thing is 404 and --
9 400.40. That's the part and then there's the
10 installation.

11 Q. Oh, the next document Sanchez Truck Repair
12 goes with it?

13 A. Yeah, all together.

14 Q. I'm stapling to Exhibit 15 Sanchez Truck
15 Repair Invoice 3923 with the same date. After Two Guys
16 Truck Parts gave you the new hub axle, did the unit
17 continue to vibrate?

18 A. Yes, it continued to vibrate.

19 Q. The next invoice I have is Amarillo Truck
20 Center, September 25th, 2005, Invoice 202065, and there
21 they start working on oil pressure, engine running
22 rough, vibration at 45 miles an hour, check for air
23 intake leak, and then I also have following that an
24 Amarillo 202137 where they're doing engine light coming
25 on. My question to you is is all this work done at the

1 same time? The first document I just mentioned to you
2 is dated September 25th, '05, and the next Amarillo is
3 dated September 27th of '05, but is it your
4 understanding it was all one time?

5 A. Yes, it was there for a few days.

6 Q. Okay. I think you understand me is I'm trying
7 to make sure it wasn't there on the 25th, left, and came
8 back. It was there -- the work was all done at around
9 the same time as far as you understand as far as you
10 know?

11 A. I am not sure, but I think most likely.

12 (Exhibit 16 was marked for identification.)

13 BY MR. MORENO:

14 Q. I'll mark the Amarillo stuff as Exhibit 16.
15 So at this point in time, September 25th, '05, your unit
16 has 195,504 miles. Does that sound right?

17 A. Yes.

18 Q. You've owned it for a year and a couple
19 months, correct?

20 A. Yes.

21 Q. And let's take a snapshot in time of the
22 condition of the truck before we allow Amarillo Truck
23 Center to work on it. Are you with me?

24 A. Sure.

25 Q. The front end is vibrating, correct?

1 A. Correct, the whole truck violently shaking,
2 not only the front, the whole thing. The tires start
3 cupping the rear drives, they start kind of --

4 Q. Start kind of what?

5 A. Wearing improperly.

6 Q. Wearing improperly?

7 A. Unevenly, yeah. The whole thing is vibrating.
8 The driver cannot take it any longer.

9 Q. The front end -- the front of the truck is
10 vibrating, the entire truck is vibrating, and you have
11 uneven wear, correct?

12 A. Yes.

13 Q. What else is wrong with the truck at this
14 time? And don't tell me about the things you don't care
15 about like cigarette lighter and door dings.

16 A. What's wrong with the truck is emergency light
17 is coming on and off, and sometimes both gauges, oil
18 pressure and turbo start fluctuating. You know, the
19 truck suddenly losing power and stopping on the freeway.
20 So John reported this first. He report this to happen,
21 like, half a dozen of times. The tractor needs to cool
22 off on the side of the freeway. Then I guess computer,
23 which was eventually the reason for the breakdowns,
24 reset somehow. Then you need to stop, take 30 minutes
25 break from the shoulder, then continue. That was what

1 was wrong with the tractor.

2 Q. And those instances where the engine is
3 shutting down as you put it --

4 A. Uh-huh.

5 Q. -- was the unit overheating as reported to you
6 by your driver?

7 A. No, it was not overheating, just stop
8 responding, you know, suddenly you're losing power
9 especially when you climbing light hills or something.

10 Q. It was a loss of power and the engine was not
11 allowing the driver to do what he wanted to do with the
12 truck?

13 A. Not responding, the accelerator was not
14 responding and eventually the light -- engine light came
15 on and the tractor shut down on the freeway.

16 Q. Did anybody -- and it was doing this
17 occasionally, correct?

18 A. Over -- for the next year it was. It was
19 doing this like -- it's done this, like, over 400 times,
20 but John Munson reported it, like, seven, eight times,
21 and I experienced myself, like, four or five times.

22 Q. Okay. But up until Amarillo --

23 A. Okay.

24 Q. -- Truck Center it had done it a few times to
25 John, correct?

Genchev vs. Freightliner, LLC, et al.
Case No. 05-CV-2071-W (JMA)

Eugene Genchev, Volume I
February 8, 2007

1 A. Correct. He was the first one to report it.

2 Q. Did anyone ever tell you or John that what the
3 engine was doing in those instances was derating as a
4 protection to the engine?

5 MR. JAFFE: Objection. Characterization as to
6 what the engine is doing.

7 THE WITNESS: I don't know.

8 MR. MORENO: I asked him if someone ever told
9 him.

10 THE WITNESS: Nobody ever told us because we
11 were asking around, you know, and your people in
12 Amarillo Truck Center they couldn't figure out what was
13 wrong and what the engine was doing.

14 BY MR. MORENO:

15 Q. Well, the work they start doing on the engine,
16 those aren't my people; those are Detroit Diesel work
17 being performed on the engine, correct?

18 MR. JAFFE: Objection. Argumentative. Calls
19 for a legal conclusion.

20 THE WITNESS: Amarillo Truck Center, your
21 people, Freightliner.

22 BY MR. MORENO:

23 Q. When Amarillo is working on your engine, it's
24 being done under the engine warranty, true?

25 A. Yes.

1 then went back for the same problem, but all together he
2 spent like two or three days in Amarillo.

3 Q. So it looks like he goes about 85 miles
4 because when he leaves on September 25th of '05 he's at
5 195504 or thereabouts and the mileage on Exhibit 17 is
6 195591. So he probably got 40 or some miles out and
7 came back.

8 A. Correct, so that's the best way.

9 Q. It says engine light came on and truck died
10 then restarted, see previous, cause oil pressure sensor.
11 B says charges not covered by warranty. The total at
12 the bottom is \$17.16. Do you know what was done during
13 this repair other than what's described in the repair --
14 in the document?

15 A. I don't know. I don't even recall who paid
16 the \$17. Probably John paid it.

17 Q. But the unit would continue to have a loss of
18 power causing you to pull over after this repair work is
19 done, correct?

20 A. Correct.

21 Q. Was it your understanding that all of this
22 loss of power, humidity sensor, oil pressure sensor, was
23 it your understanding that all of this work is being
24 done under the Detroit warranty?

25 MR. JAFFE: Objection. Calls for a legal

1 conclusion.

2 THE WITNESS: I don't know what warranty
3 covers. I --

4 BY MR. MORENO:

5 Q. That's fine. Let's go to -- the next document
6 I have is Valley Power Systems October 19th, 2005. My
7 question to you is is there anything else going on there
8 in September of '05 or October of '05 in your chronicles
9 that you want to make me aware of?

10 MR. JAFFE: We're here now.

11 THE WITNESS: Wasn't the truck some time in
12 Knoxville, Tennessee?

13 BY MR. MORENO:

14 Q. Yeah, I don't have any Knoxville, Tennessee,
15 documents and Doug doesn't. Knoxville is August 8th,
16 '05. So let's talk about that real quick, even though
17 that predates Amarillo. I think it's August 8th, '05.

18 A. Yes, it is.

19 Q. You had air bag leaks I believe for the
20 Knoxville, Tennessee, repairs and the -- I think you got
21 new air bags, which were covered under your Freightliner
22 warranty at no cost to you. Does that sound right?

23 A. I have no idea. John was the driver. He took
24 it there. He identified the problem. It could be.

25 Q. Okay. Do you recall writing a check or

1 issuing --

2 A. No, it was warranty work.

3 Q. Okay.

4 A. I didn't make any payment.

5 Q. And your air bags have never been a problem
6 since, right?

7 A. Since no.

8 Q. That's the Knoxville.

9 A. Okay.

10 Q. And I'm getting that from my warranty
11 information, copies of which I've sent to Doug.

12 A. Okay.

13 Q. And my chart here I have it written on the
14 side because I don't have a document for it.

15 A. Okay.

16 (Exhibit 18 was marked for identification.)

17 BY MR. MORENO:

18 Q. Let's go to the next exhibit, which is
19 Exhibit 18, Valley Power Systems.

20 A. So you want to know if anything was done
21 before that?

22 Q. Yeah. We did Knoxville, but we skipped it
23 because I don't have a document.

24 A. What date is that?

25 Q. October 19th, '05.

1 A. Let me find that -- which is what happened
2 after John brought the truck to here.

3 Q. Time out. Brought the truck out after what?

4 A. After Amarillo, last attempt to fix the truck.
5 He said I cannot go with this truck any longer. It's
6 vibrating, shaking. It's going to fall apart, you know.
7 And I took tractor to -- I did my own inspection of
8 tractor. I just lay underneath, and I start looking at
9 each and every single thing I could possibly find. And
10 I found missing bolt brackets holding the exhaust pipe.
11 This is under the cab. You can see this only if you
12 look through the little door you have for the fuel
13 tanks, if you look underneath. I found the bracket
14 missing two huge bolts and then the whole exhaust pipe
15 rattling underneath of the cab.

16 Q. You found two bolts missing from an exhaust
17 pipe bracket?

18 A. Correct.

19 Q. And did you in your mind conclude at that time
20 that that was the reason why the unit was shaking?

21 A. I don't know what -- either the shaking caused
22 the bolts to fall down or who was -- the egg or the
23 chicken, what was first, but I notice that this -- the
24 whole pipe is rattling, and it's just shaking whenever
25 you're going to drive the truck. Then I notice that

1 A. Next place tire shop.

2 MR. JAFFE: What's the date on there?

3 THE WITNESS: 25th October.

4 MR. JAFFE: 18 has a prior date. Go with
5 that.

6 THE WITNESS: Okay.

7 BY MR. MORENO:

8 Q. Let's go to Exhibit 18. That's October 19th,
9 2005, Valley Power Systems. It says -- this is a
10 Detroit dealership; we discussed this before, correct?

11 A. Correct.

12 Q. The same one you had been to before, correct?

13 A. Correct.

14 Q. Are you at Valley Power here in San Diego or
15 up in LA?

16 A. Right here, Miramar Road. It is Eastgate, off
17 Miramar.

18 Q. Eastgate, San Diego?

19 A. Yes.

20 Q. You took it there because you're still having
21 a check engine light and a rough ride with a shutdown,
22 correct?

23 A. Correct.

24 Q. And it says -- I'm trying to get the mileage.
25 It says intermittent CEL, which you and I know is check

1 engine light, runs rough, shuts down. Primary cause V,
2 as in Victor, pod not working. Inspected engine found
3 V-Pod not working, replace V-Pod. Did I read that
4 correctly?

5 A. Correct.

6 Q. And you paid nothing for this, correct?

7 A. Correct.

8 Q. And this was covered under your Detroit
9 warranty, correct?

10 A. Correct, I assume so.

11 Q. And after you -- it look like the RO invoice
12 date is 10/24/05. Did it take them five days to do this
13 work, or is that just the day when they wrote up the
14 invoice?

15 A. The tractor was for a week over there. Then I
16 brought it again, and again I guess two more times after
17 that.

18 Q. Back to Valley?

19 A. Yeah, most likely without paper trace.

20 Q. When we get to that point in time, you tell me
21 when -- tell me and we'll discuss it just like we did
22 San Diego Freightliner.

23 A. Okay.

24 Q. After you picked up the unit from Valley Power
25 Systems, did the unit continue to intermittently give

1 you a check engine light, run rough, and shut down?

2 A. Yes, but I couldn't notice this immediately
3 since I took the unit to change the tires. So
4 eventually the problems continue.

5 Q. Eventually the problems came back?

6 A. Came back, yeah.

7 Q. All three of those: Runs rough, shuts down,
8 check engine light?

9 A. I don't know exactly, but the check engine
10 light and the unit to reset, the unit fluctuation of the
11 gauges, yes, these things continued for the next nine
12 months.

13 Q. When you say you have to reset the unit, are
14 you talking about when the check engine light and the
15 gauge would fluctuate, whoever was driving it would pull
16 it over and rest it for a while little, then continue
17 on?

18 A. Correct.

19 Q. So the shutting down or loss of power was
20 fixed, correct?

21 A. Shutting down is basically what I described.
22 You go to little hill, the truck start to stop
23 responding. The gauges start going up and down, like in
24 Bermuda Triangle. Then you pulling over, you're cooling
25 off the unit, and you start over after 30 minutes, and

1 these things might happen five days after that, you
2 know, just they don't happen every two hours.

3 Q. What I'm trying to is you can have a check
4 engine light and a shutdown problem at the same time or
5 you could just have a check engine light problem. So
6 what I'm asking you is I know you had a continued check
7 engine light. I know you had a continued gauge
8 fluctuation, both of which you could have separate and
9 apart from one another. What I'm asking you is did you
10 ever -- did you continue also to have this shutting down
11 engine, it won't respond, it's shutting down on me
12 problem or was that fixed?

13 A. I guess it was fixed, but I -- we never really
14 had like the white light came and shut the engine down.
15 You just keep pushing the pedal of the truck that's
16 slowing 30 miles per hour on the freeway, and everybody
17 else is passing at 75 --

18 Q. I know.

19 A. -- and screaming at you.

20 Q. And I know. That's happening because the
21 engine is what they call derating. The computer in the
22 engine is sensing something and it's not allowing the
23 operator to go any faster as a protection for the
24 engine. Now, what I am saying is I know that was
25 happening to you prior, but after Valley Power Systems

1 does their work on October 19, 2005, does that specific
2 complaint exist any more? Yes or no.

3 A. Yes.

4 Q. Okay. The unit after this would on occasion
5 not allow you to go to a certain speed because it was
6 shutting down?

7 A. Exactly.

8 Q. Okay. The next -- but you don't know -- it
9 came back eventually, but you don't know how soon,
10 correct?

11 A. On me I was the driver, it came like the next
12 day probably or just -- from here to Atlanta, Georgia,
13 and back it happened, like, five times. So in
14 4,000 miles in one week, and I brought it again to
15 Detroit Valley, and I told them let's do it again. They
16 tried, like, on three different occasions, and finally
17 they said to me -- I guess they keep changing the V-Pod
18 or whatever they were changing and they couldn't figure
19 out what was the reason for --

20 Q. Okay. The next invoice I have is Parkhouse
21 Tire, Inc., dated October 25th, 2005.

22 A. Correct.

23 MR. MORENO: Let's go off.

24 (Off the record.)

25 (Exhibit 19 was marked for identification.)

1 Q. I understand.

2 A. The only thing I can tell you after the bolts
3 were put in the place and the tires were replaced, the
4 shaking and vibration issue was gone.

5 Q. Okay. And has the shaking and vibration issue
6 as you put it been eliminated up until the present?

7 A. Yes, it was.

8 Q. And you paid \$1,500 for the tires?

9 A. Correct.

10 Q. I'm sorry. \$1,516.80?

11 A. Correct.

12 Q. And is the vibration problem in the 2004
13 Columbia one of the reasons why you filed the lawsuit?

14 A. Yes, it is part of the reason.

15 Q. Okay. All right. Now, the next document I
16 have is back at Amarillo, April 13th, 2006. So why
17 don't you check your chronicle and see if anything
18 occurs between October of '05 and April 13, 2006.

19 A. Occasionally this is what occurred, the thing
20 I already described going up the hill --

21 Q. I am going to do the snapshot with you. I
22 don't mean to cut you off, but I know what you're
23 talking about. Let's do the snapshot like we did before
24 the previous Amarillo repair. Okay?

25 A. Okay.

1 Q. So you don't mean cool off. You mean letting
2 your truck rest?

3 A. Reset, yeah.

4 Q. All right. Now, at this time, April 13th of
5 2006, is that only problem with the unit that's ongoing?

6 A. Keep recurring, yes, that's the only problem.

7 Q. Okay. Here you have 274,194 miles. How long
8 was it here for this particular repair? Do you know? I
9 don't see an out date.

10 A. In Amarillo?

11 Q. Yes, sir.

12 A. It was two days or something like that.

13 Q. It's Invoice 2058. All right. Item A says
14 engine showing codes, shutting down. We just talked
15 about that, right?

16 MR. JAFFE: Do you want to give it to him? We
17 didn't mark it.

18 (Exhibit 20 was marked for identification.)

19 BY MR. MORENO:

20 Q. Sorry. I'll mark this as Exhibit 20. Engine
21 showing code, shutting down. We just discussed that,
22 true?

23 A. True.

24 Q. They found four band clamps on your turbo
25 leaking. You know what a band clamp is, correct?

1 A. Correct.

2 Q. And you know if you have a leak from the
3 turbo, you're going to have a loss of pressure that you
4 need in order to run the turbo or you don't understand
5 that?

6 A. I understand.

7 Q. Okay. And you understand that this work was
8 being done under your engine warranty, correct?

9 MR. JAFFE: Objection. Calls for a legal
10 conclusion.

11 THE WITNESS: Some of the work was done, but
12 \$98.84 I paid for this.

13 BY MR. MORENO:

14 Q. Well, the band clamp working on the turbo you
15 know that's the engine?

16 MR. JAFFE: Objection. Calls for a legal
17 conclusion.

18 THE WITNESS: I know it's the engine.

19 BY MR. MORENO:

20 Q. B says performed VIS check inspection. Do you
21 know what a VIS check is?

22 A. No. Vehicle inspection?

23 Q. Maybe I don't know.

24 In need of brake adjustment all way around
25 rear, rear axels, wheel barren, need adjustment. Did

1 they do a brake adjustment for you?

2 A. No, they didn't.

3 Q. What did you pay for, then, if they didn't do
4 a brake adjustment for you?

5 A. I guess the clamps or whatever. I paid
6 \$98.84.

7 Q. No, what I'm saying -- your band clamps for
8 your turbo, which was causing some shut down problems,
9 at least according to this document, is covered under
10 your warranty, but Item B, they're doing an inspection
11 for you and they adjust your brakes.

12 A. Apparently the clamps \$85 labor and parts I
13 paid for it.

14 Q. But you don't know what it's for?

15 A. It's for the clamps.

16 Q. The clamps?

17 A. I assume so. You can look at the exhibit.

18 Q. Okay.

19 A. Four clamps of \$3.46, one hour labor for \$85.
20 Four clamps, evidently that was not under warranty. I
21 paid for the clamps.

22 Q. Okay. Let's go to -- let me ask you: When
23 you left Amarillo, were you driving the truck?

24 A. No.

25 Q. John?

1 A. Mark McClaine.

2 Q. When Mark left Amarillo approximately
3 April 15th, 2006, from that point forward were there any
4 more intermittent check engine, power loss, gauges going
5 crazy problems with the unit?

6 A. Yes, they continued.

7 Q. Okay. Now, the unit is brought back to
8 Southern California, and I have a Valley Power Systems
9 May 15th, 2006. I take it you're taking it to Valley
10 Power Systems because you're still having the problem
11 you and I are discussing?

12 A. The same thing start recurring more often.
13 (Exhibit 21 was marked for identification.)

14 BY MR. MORENO:

15 Q. I'll mark this as Exhibit 21.

16 A. Start happening five times a day at least.

17 Q. Okay. The unit was there for three days it
18 looks like or one day?

19 A. More than one day.

20 Q. It says 5/15 and then 5/18. Complaint has
21 trouble going up/down hills, acts like the engine is
22 misfiring. When this happens, oil/turbo gauges flux.
23 Driver shuts off for 15, 20 minutes and it run again.
24 That's what were talking about?

25 A. That's it.

1 Q. Primary cause EGR VLV, were you told what that
2 was?

3 A. I don't know.

4 Q. Corrections made: Test drove engine, derated,
5 which I was talking to you about earlier, then regained
6 power. Then they run some checks. All right. They
7 don't duplicate your problem. Did they tell you they
8 could not duplicate your problem?

9 A. I guess they fix something but --

10 Q. And the corrections made, they're just
11 checking things. The document doesn't look like they
12 worked on anything.

13 MR. JAFFE: Objection. Lack of foundation.

14 BY MR. MORENO:

15 Q. Do you know if they did any work?

16 A. Is this all the paperwork we got for these
17 things?

18 Q. Yes.

19 A. I guess they changed V bolt or something,
20 didn't they?

21 Q. They did prior.

22 A. Prior? It's been over there so many times I
23 just -- I'm losing track, but eventually nothing
24 happened. They said it's fixed.

25 Q. Okay. But the problems continued?

Genchev vs. Freightliner, LLC, et al.
Case No. 05-CV-2071-W (JMA)

Eugene Genchev, Volume I
February 8, 2007

1 A. He made it only from here to Yuma. Then the
2 whole thing start over again, and we took it to next
3 repair shop in Phoenix the following day.

4 Q. From San Diego and Phoenix is the W.W.
5 Williams we're about to get to, correct?

6 A. Correct. We took it to Freightliner first and
7 they as usual gave us, like, five days, I think, before
8 they start working on tractor. So we -- I decide to
9 take the tractor to Detroit.

10 Q. You went to what Freightliner before you get
11 to Phoenix?

12 A. The one in Phoenix, told us -- there are two
13 so.

14 Q. Time out, back up. May 15, '06, you're at
15 Valley Power?

16 A. Right.

17 Q. You leave?

18 A. Mark McClaine leaves with a load.

19 Q. And the unit does the same thing to him in
20 Yuma?

21 A. Correct.

22 Q. Does he try to get into a Freightliner
23 dealership?

24 A. Immediately.

25 Q. Which one did he try to get into?

1 A. The one in Tolleson.

2 Q. Tolleson, Arizona?

3 A. Yeah.

4 Q. But the wait is too long?

5 A. The wait is three or four days from check in
6 so.

7 Q. So he decides to go to W.W. Williams, Phoenix,
8 Arizona?

9 A. Correct.

10 (Exhibit 22 was marked for identification.)

11 BY MR. MORENO:

12 Q. Okay. Let's mark W.W. Williams as Exhibit 22,
13 and that has a date of May 19th, 2006. Intermittent
14 engine miss and check engine light and the AC blowing
15 warm. Is this a new --

16 A. New complaint, yeah.

17 Q. They replaced your V-Pod. This is the second
18 time it was replaced, correct, according to the
19 documents we've reviewed? Is that your understanding?

20 A. Yes.

21 Q. Okay. Did the AC work after W.W. Williams did
22 whatever they did to it?

23 A. They didn't do work on the AC. They asked me
24 for six, \$700 compressor and stuff. I told him I'd
25 rather take it to Freightliner where I might use the

1 warranty.

2 Q. Because W.W. Williams is a non-Freightliner
3 facility?

4 A. Yeah, I understand it. That's why I told him
5 not to mess up with the AC just to fix the engine.

6 Q. Okay. After the V-Pod was replaced -- strike
7 that.

8 Is W.W. Williams a Detroit authorized
9 facility? Must be.

10 A. It is the one like Detroit, same thing,
11 Detroit.

12 Q. After W.W. Williams replaces the V-Pod on
13 May 19th, 2006, does this check engine light, erratic
14 gauge, unit shutting down phenomenon cease?

15 A. No.

16 Q. It continues?

17 A. Continues two hours after that.

18 Q. It happens two hours as he's continuing east,
19 and now he's somewhere near Albuquerque, correct?

20 A. Not exactly two hours. He was just climbing
21 up the hill, up to the hill to -- before Flagstaff it
22 happened again. He called me. He said I am not sure I
23 can even make the hill, and he was driving, like, in
24 first gear up to Flagstaff. Then he shut off again. He
25 start on and off, and I told him to take the tractor to

1 batteries is when you're starting the tractor up.

2 Q. My question was did anybody try to explain to
3 you that the batteries were in some way connected to
4 this phenomenon we're talking about?

5 A. No.

6 (Exhibit 24 was marked for identification.)

7 BY MR. MORENO:

8 Q. Okay. Let's go to the next document, which is
9 On The Border Freightliner El Paso, which we'll mark as
10 Exhibit 24 as -- it's McClaine, right?"

11 A. Correct.

12 Q. When McClaine drove away from Albuquerque
13 Freightliner two days later, 'cause it went out, it
14 looks like, on the 24th of May '06, did the problem come
15 back again?

16 A. Two hours after he left Albuquerque.

17 Q. Same thing?

18 A. Same thing.

19 Q. Check engine light, erratic behavior, loss of
20 power?

21 A. Right.

22 Q. Do you know if he was -- strike that.

23 This intermittent problem of the three items
24 that we're talking about here, did it occur on flat
25 surfaces or just grades?

1 for good, right?

2 A. Right, they fixed it.

3 Q. Check and advise for engine shutting down. It
4 says cause ECM failed. Repair and replace, remove and
5 replace ECM combine time. Did you pay for any of this
6 work done by On The Border Freightliner?

7 A. No, I did not.

8 Q. Do you have an understanding that this work
9 was done under the Detroit warranty?

10 MR. JAFFE: Objection. Calls for a legal
11 conclusion.

12 You can answer.

13 THE WITNESS: Yes.

14 BY MR. MORENO:

15 Q. It's done under the Detroit warranty?

16 MR. JAFFE: Do you know? If you don't know,
17 you don't know.

18 BY MR. MORENO:

19 Q. It's the same question I've been asking for
20 each one of these repairs. It's work on the engine. It
21 doesn't show up in your Freightliner history, the
22 documents you've reviewed. So it's your understanding
23 it was covered under the Detroit warranty as far as you
24 know, true?

25 A. True.

1 two different repairs?

2 A. No, the same repair, one whole week.

3 (Exhibit 27 was marked for identification.)

4 BY MR. MORENO:

5 Q. Okay. This is another Valley Power Systems
6 which we'll mark as 27. Jakes are not working. That's
7 your jake brake, right?

8 A. Yes.

9 Q. Oil leak, that's something different, correct?

10 A. That's the oil leak, which if you remember,
11 they refused to work on anything because they said
12 Detroit Diesel doesn't meet the requirements for
13 warranty work. Remember that?

14 Q. Yeah. Does your -- did your engine have a
15 blow by tube?

16 A. Yes, it does underneath.

17 Q. Now, was that first leak that you were talking
18 about, was that a leak from the blow by tube?

19 A. No, it was the leak from the air compressor.

20 Q. Okay. So are you complaining to them here
21 about that same leak, seeing if they'll somehow get it
22 fixed this time for you?

23 A. Yes.

24 Q. Okay. It says jakes are not working. Did
25 they fix the jake brake?

1 A. Not at this time but somehow they came back.
2 So they couldn't figure out what's wrong with the jakes.

3 Q. Are we going to a come to a document soon here
4 where they fix the jakes?

5 A. The jakes, they got fixed by itself, just
6 magically. Nobody fixed the jake brakes that I know of.

7 Q. Oil leak, did they do any work on this oil
8 leak?

9 A. Yes, they did.

10 Q. They fixed it?

11 A. Yes, they did.

12 Q. Okay. At no cost to you?

13 A. \$1,541.21.

14 Q. What are you looking at?

15 A. I guess your copy is bad or something.

16 Q. Yeah, because my copy says -- maybe the total
17 got --

18 A. The total got -- that's what it is. It's --

19 Q. It says repairs made see attached for story.
20 So there's got to be a second page to this.

21 A. Yeah, there was handwritten story. I
22 probably -- I'll find it, and I'll give it to you.

23 Q. Do you know -- do you mind if I ask you some
24 questions while you're looking for it?

25 A. Yes, yes.

1 Q. It also says compress after coasting downhill
2 misfires, black smoke. Is that dealing with the oil
3 leak?

4 A. No, this is -- one of these things which occur
5 and I stop and I ask a guy in one of your Freightliner
6 dealerships and I told him is that normal when I'm
7 coasting down the hill. I'm just not accelerating for a
8 while, and then I stop, and then there's a huge black
9 smoke coming off my stacks. And he said that's normal
10 operation, and I came over here to Detroit complaining
11 about the same thing. He said who told you that's
12 normal. That's something wrong with the unit, and then
13 they start checking on it.

14 Q. Did they diagnose your unit here?

15 A. Yes.

16 Q. And what did they find?

17 A. Regarding the black smoke thing?

18 Q. Yes, sir.

19 A. I guess they couldn't figure out what's wrong.

20 Q. And you were saying that you experienced a lot
21 of smoke coming from your stacks when you're coasting
22 downhill and then you apply gas?

23 A. Correct.

24 Q. I mean, apply pressure to the accelerator?

25 A. Correct. Here is your story, handwritten

1 story.

2 Q. So they couldn't find a problem here with that
3 occurring?

4 A. No, they just gave me little paper sheet.
5 They said just mark on there these things keep occurring
6 and all this stuff, and then I also did oil analysis,
7 you know.

8 Q. Who took that for you?

9 A. Two occasions. I have it Shell and somebody
10 else. I did it two times, and we found contamination
11 because I kept losing the coolant. The coolant was
12 going somewhere and nobody can find and figure out where
13 it's going to. So there is no cold leaks, nothing
14 dripping under the tractor. The coolant disappears.

15 Q. Let me ask you a question real quick if you
16 don't mind. You said you keep losing coolant. You
17 didn't notice any leaking, but you kept having to add
18 coolant?

19 A. Right.

20 Q. So the truck was eating coolant?

21 A. Correct.

22 Q. Okay, go ahead.

23 A. Then we did oil analysis to figure out if
24 anything goes to the oil.

25 Q. When was the first sample taken?

1 A. I'll find it and tell you.

2 Q. Have we already gone over it?

3 A. No. It's coming up.

4 Q. I don't want to see it then if it's something
5 we're going to discuss coming up.

6 A. Yeah.

7 Q. Is this the second page of Valley Power?

8 A. This is the story attached to it.

9 Q. Let's put this all together.

10 A. And this is probably one of my samples.

11 Q. Okay. They took a sample because of this
12 problem -- because of what you were explaining to him
13 about the smoke coming from the stack when you were
14 coming downhill?

15 A. I did the sample on my own to see how was the
16 oil and see if there's any contamination since we cannot
17 figure out where is the coolant going to.

18 Q. How did you do your own sample?

19 A. Stop at the truck stop or whenever you do oil
20 change, and then you get one of these little things.
21 You send them to Shell or whatever the laboratory they
22 do the sample. They'll send you the results later.

23 Q. Okay. And is that what this is or the results
24 here, are these results that were faxed to you or faxed
25 to Valley?

1 A. I have two results faxed to me. I did it
2 twice because just to confirm.

3 Q. What I'm asking you is I have attached to
4 Exhibit 27 some results. Who took the first sample?

5 A. Let's figure these things out.

6 MR. MORENO: Have you seen any of these
7 documents?

8 MR. JAFFE: No.

9 BY MR. MORENO:

10 Q. How many samples total were taken?

11 A. Two and mostly they did another one back in
12 January, right now, the Valley people.

13 Q. We're -- just so you know, we're in October of
14 2006.

15 A. Okay.

16 Q. And this -- this report says, the second page
17 of the report, third page of the exhibit, says "analysis
18 indicates an abnormal contamination is present. Coolant
19 additives are present." So did you give this
20 information to Valley Power Systems or was this
21 information faxed to Valley Power?

22 A. I give it to them. Look at the first page,
23 the fax thing. I guess this came to my house from some
24 place.

25 Q. It's from Analysis Results Fax to

1 (858) 271-5354.

2 A. That's me.

3 Q. Okay. So you took the first sample; you sent
4 it off; they fax you the results?

5 A. I didn't do it. I do this in the truck stop.
6 The technician do the sample.

7 Q. That's what I meant. What I meant is you're
8 having someone do it for you rather than Valley do it?

9 A. Yeah.

10 Q. Did you take these results to Valley?

11 A. Yes, I did.

12 Q. And you said hey --

13 A. That's why they're stapled together. I said,
14 hey, take a look, see what's going on.

15 Q. Okay.

16 A. And I did another one to confirm if the first
17 one was correct.

18 Q. But we're not there yet, right?

19 A. Yes.

20 Q. Okay. Well, after they did this work, I am
21 reading their descriptions, what did they tell you was
22 wrong with the truck, if anything?

23 A. They told me that they couldn't figure out at
24 this point why the black smoke is coming out of the
25 stacks, and they told me that my warranty already

Genchev vs. Freightliner, LLC, et al.
Case No. 05-CV-2071-W (JMA)

Eugene Genchev, Volume I
February 8, 2007

1 expired and the compressor or whatever the leak was
2 that's why I supposed to pay this \$1,500.

3 Q. So did they do some work for you at the cost
4 of \$1500?

5 A. Yes, they did, \$1,541.21.

6 Q. Where are you looking at?

7 A. I look at my chronicle, and it looks like the
8 copy machine ate up --

9 Q. Okay. Let's do this. I'm going to write in
10 on Exhibit 27 at the bottom where the total is written
11 off and take for now your recollection of what you paid
12 from your chronicles, and if Mr. Jaffe doesn't have a
13 problem with that.

14 MR. JAFFE: That's fine.

15 BY MR. MORENO:

16 Q. What's the number you paid?

17 MR. JAFFE: 1,541.21 is what it says on the
18 chronicles.

19 BY MR. MORENO:

20 Q. What do you call your company? EDG?

21 A. Yeah, that's like my names.

22 Q. So was the \$1,500 that you paid to Valley
23 Power Systems all diagnostics?

24 A. No, it was, like, compressor change and
25 whatever is described over there.

1 Q. But not under the Detroit warranty so they --
2 they charged you for it?

3 MR. JAFFE: Objection. Calls for a legal
4 conclusion.

5 You can answer if you can.

6 THE WITNESS: I don't know. You look at the
7 paper. It's described what kind of work they did there.
8 BY MR. MORENO:

9 Q. But did they tell you why it was not covered
10 under somebody's warranty is what I'm asking?

11 A. I point out the leak. I told him this is the
12 leak which Freightliner refused to work on the previous
13 year, and he told me the compressor is covered up to
14 certain point, which I already passed like two years,
15 340,000, and since my tractor was over the limit, then
16 no more warranty for that.

17 Q. Oh, an oil compressor? What kind of
18 compressor?

19 A. It was air compressor.

20 Q. So they told you that they could do the work,
21 but it wasn't going to be covered under the Freightliner
22 because it had expired?

23 A. The Detroit warranty, isn't the air compressor
24 part of the --

25 Q. Well, if -- I don't know, but if Valley Power

1 Systems is doing work and agreeing to do the work, that
2 means it's an engine-related part.

3 A. Yeah, it is. And they told me your warranty
4 expired already.

5 Q. For the Detroit engine?

6 A. Yeah, whether it's true or not.

7 Q. What's your understanding of how long your
8 warranty is on your Detroit engine?

9 MR. JAFFE: Objection. Calls for legal
10 conclusion.

11 You can answer.

12 THE WITNESS: I've got some paperwork which
13 describing what is covered up to what point, some things
14 covered up to 240, and some things are to 500,000.

15 BY MR. MORENO:

16 Q. So it's your understanding that what -- the
17 engine work that they were doing fell under a particular
18 portion of the engine warranty, but it had expired. Was
19 that your understanding?

20 A. That's what they explained to me, yes.

21 Q. Okay. What else happens after October 12th,
22 2006?

23 A. After that the truck was stuck in the military
24 base in Utah, couldn't start. Got stuck there I guess.

25 Q. Okay. Can you hand me that document? What's

1 you do next? Take the truck somewhere?

2 A. I called immediately the technicians at Valley
3 Detroit and told them and what the results says, and
4 they told me you need to bring this engine immediately
5 over here before you blow out on the road.

6 Q. Okay. Just for the record the Exhibit 31
7 sample date is January 5th, 2007. So when you called
8 Valley and they said get it over here immediately, did
9 you do that?

10 A. Yes, I did.

11 Q. Okay. And is that this next set of document
12 here?

13 A. That's what it is.

14 Q. Okay. This Columbia, this says Columbia seven
15 something, what is that for?

16 A. '07 is the year. That's the repairs for this
17 year.

18 (Exhibit 32 was marked for identification.)

19 BY MR. MORENO:

20 Q. Okay. Let me hand that to you because I don't
21 need that. I'll mark as 32 a Valley Power Systems,
22 Inc., invoice dated January 11th, '07, and it looks like
23 an invoice close out date of January 29th, '07, Repair
24 Order No. C15524. Complaint: Coolant in the oil. What
25 did they tell you they did?

1 A. They did a lot of things and they, I guess,
2 still couldn't figure out why it's mixing fluids so.

3 Q. They couldn't figure out why you were getting
4 coolant into your engine?

5 A. They continued to test, and they asked me to
6 bring the truck there again halfway through the next oil
7 change so they can take another oil sample, which I did
8 two days ago.

9 Q. All right. So they did work on it?

10 A. For two weeks.

11 Q. They obviously drained the engine oil?

12 A. They pressurize it. They describe everything
13 they did over there.

14 Q. So after they did this work, did they still
15 find evidence of coolant in the oil or do they not know
16 yet because the second -- the third test hasn't come
17 back?

18 MR. JAFFE: Objection. Lack of foundation.

19 You can answer.

20 THE WITNESS: The last test we did was
21 Tuesday. So I haven't gotten the results yet.

22 BY MR. MORENO:

23 Q. So --

24 A. But they did independent tests and they --
25 they notice coolant in the oil. They pressurized the --

1 removed the pan, they did some warranty work for which I
2 was charged close to \$600.

3 Q. They did work on the engine that you were
4 charged 592.35, correct?

5 A. Correct.

6 Q. And did they tell you -- did someone tell you
7 in connection with Exhibit 32 that this work is not
8 covered under the Detroit warranty?

9 MR. JAFFE: Objection. Hearsay.

10 You can answer.

11 THE WITNESS: They told me \$300 is the
12 deductible and the rest of it is like oil, some
13 consumables.

14 BY MR. MORENO:

15 Q. Okay. But they were -- when they were
16 explaining to you what's going to be covered, what's not
17 going to be covered, were they explaining it -- from
18 your understanding were they explaining it from the
19 Detroit diesel warranty that you have?

20 A. Yes, they did, \$300 deductible.

21 Q. Now, after they were done with their work as
22 described in Exhibit 32, did they say do another oil
23 sample in a few weeks and bring it back to us with the
24 results, or what did they tell you after they did their
25 work as far as what should be done with the truck?

1 MR. JAFFE: Objection. Hearsay.

2 THE WITNESS: They told me after they did
3 this, bring the truck after 5,000 miles, halfway through
4 the next oil change, and they'll take another oil
5 sample, which they did Tuesday. So we already sample
6 this for the fourth time I guess.

7 BY MR. MORENO:

8 Q. This is the third that was just taken?

9 A. I took two myself. I guess they took one when
10 they start the work first thing. They took one two days
11 ago. So it would be four.

12 Q. So you're waiting for results for two?

13 A. Right.

14 Q. So you drove the truck for 5,000 miles, got it
15 back to them, and they took a sample and then --

16 A. McAllister dropped it.

17 Q. I'm sorry.

18 A. Joe McAllister, he took it.

19 Q. And then another sample was sent off for two
20 days ago by you?

21 A. By them, they took the sample. I didn't touch
22 anything. I was -- I just drove through, the tractor
23 through, and they took the sample. They're in control
24 right now.

25 Q. When you get those sample results, will you

1 A. Correct.

2 Q. And there's another bolt above that that's not
3 shown in the photograph?

4 A. Yes, I guess that's the one which came loose
5 after that. That's why it was shaking. I guess you had
6 these bolts picture taken by the -- our appraiser.

7 Q. By what?

8 A. The appraiser.

9 Q. What appraiser? Oh, your expert?

10 A. Yeah.

11 Q. No, these photos are some somewhere else.

12 A. Okay.

13 Q. At the present time, Mr. Genchev, you have a
14 complaint about contaminants getting into your engine
15 oil, correct?

16 A. Correct.

17 Q. And what other existing problems?

18 A. That's the only problem I have right now.

19 Q. The only -- the only -- out of all the things
20 I've covered in the repair history of your unit, the
21 only one that at this time is not fixed or a
22 determination has been made as to the cause relates to
23 the engine oil -- the contamination of the engine oil?

24 A. Correct. I don't know about going down the
25 hill and big smoke coming out of the stack.

Genchev vs. Freightliner, LLC, et al.
Case No. 05-CV-2071-W (JMA)

Eugene Genchev, Volume I
February 8, 2007

1 Q. And then what's this 592.35 at the end of '06?

2 A. That's last week oil and engine deductible.

3 Q. Okay. You only paid 300 of that, though,
4 right? I thought you paid 300, and the rest was covered
5 by something else or did you pay --

6 A. I paid \$592.

7 Q. And then so the grand total at the bottom
8 circled is 11,914.27?

9 A. Correct.

10 Q. And that's everything that you've paid out of
11 pocket for all repairs, motels, towing, for the 2004
12 Columbia, correct?

13 A. Correct.

14 Q. From the date you bought it up until today,
15 correct?

16 A. This is only the charges which I believe
17 Freightliner should have covered or I shouldn't pay for
18 it. I didn't bring you any oil changes, any routine
19 maintenance, anything else.

20 Q. Well, of course, and there's good reason why.
21 You know what I told you to do with those things, right?

22 A. Correct.

23 Q. Okay. All right. Okay. Anything else -- any
24 other documents you have here in front of you that
25 relate to the '04 Columbia?

1 A. Last year? I haven't done this paperwork yet.

2 Q. What about 2005?

3 A. If we ask my wife, she'll know better but on
4 the top of my head like \$400,000, 300,000, something
5 like that.

6 Q. Gross roughly between three and 400,000?

7 A. Correct.

8 Q. And then your net for 2005 estimate?

9 A. Net it's most likely negative after all the
10 wonderful experience with Freightliner. I don't know.
11 Schedule C you mean or just?

12 Q. Are you saying you made no money whatsoever in
13 2005? No net cash?

14 A. Most likely not after diesel, after repair,
15 after this tractors, they cost a lot of money.

16 Q. The repairs cost you \$11,914.27 according to
17 Exhibit 37.

18 A. Correct. This is the bad repair days, like
19 good repair. There is diesel, the diesel cost me maybe
20 \$150,000.

21 Q. What are you talking about the diesel cost you
22 \$150,000?

23 A. The diesel is very expensive lately.

24 Q. You're talking about to pay for the diesel to
25 put in the engine?

Genchev vs. Freightliner, LLC, et al.
Case No. 05-CV-2071-W (JMA)

Eugene Genchev, Volume I
February 8, 2007

1 know that.

2 Q. Once you went here, you got your high school
3 diploma?

4 A. Yes.

5 Q. And what year did you get your high school
6 diploma?

7 A. It was immediately after I came. It was like
8 '90 or '91.

9 Q. Were you trying to learn English?

10 A. Yeah.

11 Q. And any other education or training?

12 A. Economics, swimming, and just high school.

13 Q. Okay. Have we covered all of the lost booked
14 loads as a result of repairs being performed on the 2004
15 Columbia? And I can read them off to you if you want me
16 to make sure I have it.

17 A. Yeah, we covered most of them.

18 Q. I have \$1500 end of May 2005, \$500 mid May
19 '06, \$1,500 last week that's for the oil contamination,
20 \$1,500 LA Freightliner Ontario cracked cab and the \$300
21 penalty.

22 A. Correct.

23 Q. Are there any other lost loads or penalties
24 that you've incurred as a result of repairs to the '04
25 Columbia in your mind?

Genchev vs. Freightliner, LLC, et al.
Case No. 05-CV-2071-W (JMA)

Eugene Genchev, Volume I
February 8, 2007

1 A. It's difficult for me to speculate. I don't
2 know if we lost any more, but for sure the tractor was
3 more than 60 days out of service. So during that time
4 I'm just pointing out the loads which I already booked
5 and missed. And if there are a lot of opportunities I
6 missed because of the tractor being serviced that
7 extended period of time.

8 Q. What is the current mileage of -- on the unit?

9 A. If you look at the last exhibit.

10 Q. It's being copied.

11 A. It's like 390, something most likely.

12 Q. 390?

13 A. 395, somewhere there.

14 Q. I don't think Valley puts -- Valley doesn't
15 put the mileage. Okay. But it's approximately 390,000?

16 A. Yes.

17 Q. Let me see what documents you have for the '04
18 tractor that you have not given to Mr. Jaffe.

19 A. '04?

20 Q. I'm sorry. '05. First of all, the -- you've
21 given us and we've gone through everything relating to
22 the '04 except oil change, transmission change, so on
23 and so forth, right?

24 A. Yeah, tire changes, routine maintenance, which
25 I don't think you guys is responsible for. So that's

Eugene Genchev – Owner of Freightliner Columbia 04
Chronicles

08/02/04 Purchased a New Freightliner Truck at Albuquerque, NM

Immediately after delivery discovered broken sun visor mirror, missing CB radio wire and not working electrical socket. Arranged with the dealer to have those cosmetics fixed.

09/20/04 Took care of those with the exception of the electrical socket. Was told that time consuming rewiring is needed.

December 2004 Noticed cab leaning on one side. Told by Freightliner that maybe minor adjustment is needed. No expert on duty, will address it next time.

January 2005 The leaning worsen. Stopped by Freightliner for oil and fuel leak. Still can not find the reason for leaning cab.

01/30-31/04 Fixed the continuing oil and fuel leak at San Diego Valley Detroit.

February 2005 The leaning got much worse and progressive damage began. Albuquerque Freightliner discovered severe structural damage. Was told that at least two weeks needed. Paid around \$ 100 to put the fairing back and have the repair done closer to home.

February – March 2005 20 days repair in Ontario, CA. Lost business and canceled booked load due to them not meeting the promised day.

04/13/2005 Wrote letter to Freightliner asking for help.

Two weeks later received a phone call from Jody Morris (Freightliner Rep) offering additional warranty as a compensation.

05/18 – 28 /05 Lost needlessly 10 days for various repairs after Fontana Freightliner stopped the work in the middle citing no record of the extended warranty. Spent at least 2 days going through all the bureaucratic channels trying to convince them. Was charged \$ 55.80 + \$ 140.46. Some of those for fixing the electrical socket (fuse). Was told back in Albuquerque that rewiring is necessary. Lost business and canceled another booked load after they didn't meet the promised day.

06/08/05 Received letter from Freightliner acknowledging the warranty

06/28/05 -07/02/05 5 days repair in West Virginia Truck & Trailer, Inc. After refusal to honor the warranty was forced to pay \$ 2527.21 . The driver's motel room was \$ 185.26 and the delivery was late.

Between 8/12/05 and 9/25/05 attempted to fix unsuccessfully shaking and vibration spending \$ 260 + \$ 400.46 .

At the end of October after doing my own inspection discovered missing exhaust pipe bracket bolts under the cab .Took the truck to San Diego Freightliner for repair. Was told that they don't have body shop to work on the handling problem and not going to work on the rest until the unevenly wear rear set of tires was replaced , which was Michelin issue according to them. Took the truck to Michelin, where severe mechanical problem was cited for the worn tires .Replaced the bad tires for \$ 1516.80 and took the truck to Valley Detroit for the engine work. Missing bolts were replaced by either Freightliner or Detroit whit no record. Shaking and vibration eliminated after that.

Several engine problems after that. Lost additional 8 -10 days on 3 occasions at Valley Detroit .

Overall spent \$ 55.90	5/25/05 Fontana, CA
\$ 140.46	5/28/05 Fontana, CA
\$ 2527.21	7/02/05 Cross Lanes, WV
\$ 185.26	7/02/05 Cross Lanes, WV
\$ 260	8/12/05 Centerville, IN
\$ 400.40	8/23/05 San Diego, CA
\$ 1516.80	10/25/05 San Diego,

\$ 5086.03	

That's the actual amount without calculating the missed opportunity during the 50+ days out, consequences of the late deliveries and canceled loads, layovers and accommodations for unhappy drivers ecc.

Chronicles Part 2

The mysterious engine problem continued. The Truck experienced difficulties up the hills and needed to shut down for a while before resuming operation.

04/12/2006 The Truck taken to Amarillo Freightliner to correct the problem.

Spent two days causing late delivery and charged \$ 109.18 on the top of the warranty job with no result.

During the following few weeks the condition worsen .Between 5/10 – 5/13 The truck needed three days to complete 973 mile run. Another late delivery with major broker and missed assignment in Las Vegas for + \$ 500.

From Las Vegas The truck brought back to San Diego for repairs.

After four days in Valley Detroit back on the road again. But only for a few hours.

05/19/2006 The truck taken to Freightliner Phoenix where they said would be 3 – 4 days before they'd look at it. From there taken to Williams Detroit in Phoenix .After the repair done there the situation is the same.

Barely made it to Albuquerque where The truck was taken to the original Dealer hoping they would finally take the problem seriously .Unfortunately I was given some ridiculous estimates of \$ 650+ for battery replacement like this was the reason for the engine malfunction. After three days and charged of \$ 164.78 on the top of the warranty job The truck left the shop in the same condition. Consequently another late load, motel bills and frustrated driver.

05/25/06 After I brought the never ending problem to the attention of Mr. Jafee The truck was taken to El Paso Freightliner where finally the problem was thoroughly addressed by qualified personal. Another 3 days gone and \$ 150 motel not to mention the driver.

06/04/2006 Amarillo, TX The truck experienced air leak because of incorrectly installed air lanes. Although repaired at no charge the delay still caused late delivery with \$ 500 possible penalty .

Part 3

The late delivery ended up costing me only \$ 300, but eliminated any chance for future work with that broker.

October 6 – 12 2006 San Diego, CA Engine repairs and oil leaks \$ 1,541.21.

December 2006 Road assistance because of faulty starter was needed in Utah's Military Base \$ 82.50

A few days later the problem was addressed in San Diego \$ 1,130.82.

During the same time oil analyze revealed abnormal contamination indicating unknown engine problem.

December 13 – 15 2006 Clutch failure in Albany, NY
\$ 599.35 tow \$ 2,083.37 repair \$ 273.36 motel + 5 days late delivery.
Cause for the failure according to Freightliner Service Personal - insufficient lubrication .
Last PM oil change – lubrication service performed at Travel Center of America – Freightliner affiliate.

January 11 – 29 2007 Contamination's problem addressed at Valley Detroit San Diego
\$ 592.35 18 days out of service . Missed out on \$ 5000+ load .

Revision Date 10/12/2004

10-7-06 removed belts ordered new ones. Hooked up ODD6 ECM not ~~getting~~ getting signal to start. jakes checked batt voltage low when cranking. removed ECM veh. conn. no ground signal from Vch. removed Dash checked resistance from switch to ECM. Wires good changed ~~belts~~ belts. hooked jumper wire from ground to wire harness jakes work. Replace Switch.

10-11-06 #1588 installed new Jake Switch put together Dash

10/10/06 # 668

Drained and stored coolant for reuse. Disconnected & removed fuel lines from fuel pump to filter housing. Removed fuel pump. Prepared surface for reinstallation and changed ~~gasket~~ O ring seal. Removed compressor support bracket. Disconnected all lines to the compressor. The air line from the compressor to the check valve was damaged. Ordered a new line, hose, & clor. Unfastened compressor mounting bolts removed compressor. Cleaned Up.

10/11/06 # 668

Removed all fittings from old compressor resealed and installed them on the new compressor. Installed compressor with a new O ring seal and torqued down. Installed Compressor support bracket. Installed fuel pump and torqued down. Connected fuel lines from pump to filter housings. Connected all lines to the compressor. Refilled coolant. Turned in old compressor. Cleaned Up. Pressure washed unit and let run to check for leaks.

CHECKED INPUTS K-2 AND K-3 W/DDL LISTS, ECM STILL DOES NOT
RECEIVE SIGNAL FROM OEM SWITCH TO INPUTS. REMOVED SWITCH
AND RE-INSTALLED OLD ONE. REMOVED ECM AND INSTALLED TEST ECM
STILL NO SIGNAL AT K-2 AND K-3 RE-INSTALLED ORIGINAL ECM
AND RE-ASSEMBLED DASH PANEL. THERE IS AN OPEN IN THE OEM
HARNESS FOR THE JAKE BRAKE CIRCUIT K-2 AND K-3. MORE TIME IS
NEEDED FOR DIAGNOSIS

Oil Condition			<input checked="" type="checkbox"/>	<i>Oil no longer serviceable due to high contamination.</i>
Piston Rings	<input checked="" type="checkbox"/>			
Pistons	<input checked="" type="checkbox"/>			
Sludge Potential			<input checked="" type="checkbox"/>	<i>Sludge formation possible due to high oxidation and/or nitration.</i>
Water Contamination			<input checked="" type="checkbox"/>	<i>Elevated water content detected.</i>
Wear Metals	<input checked="" type="checkbox"/>			

Overall Results: Unacceptable

RESAMPLE AT 1/2 SERVICE INTERVAL TO MONITOR.

Recommendation:

1. All engine wear rates normal.
2. Change engine oil and filter.
3. Check for source of water contamination.
4. For a more thorough removal of contaminants, an engine oil flush service is recommended.

UNDERSTANDING YOUR ENGINE REPORT

It's easy!

You don't need to be an expert . . . The built-in diagnostics do it for you!

The analytical test results and diagnostic comments / recommendations have been provided by the On-site Analyzer (OSA), which incorporates the latest technological advancements in the oil analysis industry.

The tests include optical emission spectroscopy and infrared spectroscopy to monitor engine or transmission internal wear rates as well as the physical properties of the oil to determine the oil's condition and serviceability.

We test for 10 elements: 6 wear metals, 1 additive metal, and 3 contaminant metals. The wear metals are minute particles of metal suspended in the oil, which are formed by friction between moving parts, abrasion or corrosion. The On-Site Analyzer produces a measurement in parts per million (ppm). These results are scientifically matched against known engine or transmission wear patterns and reported in the diagnostic comment section depending on the severity of the situation and on the following wear information for engines, transmissions and gear boxes (maximum 90 weight oil or 80W90 multi-grade oils). The condemning limits (or break points) are dependent on the engine or transmission make, the total number of miles on the system (or since overhaul).

Diagnostics:

Air Filter: Abnormal condition usually caused by the ingestion of dirt, resulting from a failed or torn air filter.

Bearings, Bushings, Camshaft and Crankshaft:

Abnormal condition can be caused by local oil starvation resulting from a blocked oil-way, or ingested dirt or other abrasive material, or the presence of corrosive materials from a heavily degraded engine oil (too many hours on the oil)

Cooling System: Abnormal condition can be caused by leaks from gaskets or seals, a broken head gasket or from a cracked engine block.

Cylinders, Piston Rings, Pistons: Abnormal condition can be caused by poor lubrication resulting from blocked oil-ways or excessive deposits in the ring zone or the ingested dirt or other abrasive materials.

Engine Block: Abnormal condition can be caused by a cracking or distortion of the engine block resulting from extreme low or high temperatures.

Fuel System: Abnormal condition can be caused by leaks in internal fuel lines, a failed fuel pump diaphragm, or leaking fuel injectors (seats).

Summary Diagnostics:

Wear Metals: Abnormal condition can be caused by ingestion of dirt or other abrasive materials (failed air filter), local oil starvation (block oil-way), or corrosion caused by.

Coolant Content: Abnormal condition can cause severe degradation of the lubricant, leading to local oil starvation, lubricant failure and eventual excessive mechanical wear.

Sludge Potential: Abnormal condition can be caused by over-extension of the oil life or from regular short journeys where engine does not reach normal operating temperature.

Fuel Content: Abnormal condition can be caused by leaks in internal fuel lines, a failed fuel pump diaphragm, or leaking fuel injectors (seats).

Water Content: Abnormal condition can be caused by excessive condensation, and at high levels from a cracked engine block, a broken head gasket, a leaking water pump seal, or simply ingestion of water from operating vehicle in flood conditions.

Wear Metal Associations:

Aluminum: Pistons, engine blocks, blowers, and bearings.

Chromium: Compression rings, cams, low friction bearings, liners, zinc chromate cooling system inhibitor.

Copper: Bearings, bushings, thrust washers, oil cooler, and clutches, oil additive.

Iron: Crankshaft, valve train, cylinders, gears, liner, and bearings.

Lead: Bearings, contaminant from leaded gasoline (automotive only).

Tin: Pistons, bearings, and bushings.

Additive Metals:

Molybdenum: EP additives, alloying metal with iron, rings, friction reducing coating.

Contaminant Metals:

Contaminant metals result primarily through problems with the air intake system (Silica - dirt) or because of coolant leaks (Potassium, Sodium and sometimes Silicone are typical additives in water treatment chemicals). These metals are also measured in ppm and evaluated on content and severity.

Silicon: Usually an indication of dirt ingestion when (the ratio of silicon to aluminum is 3.4:1) as the root resulting in abrasive wear, seal material, or a silicon based oil or coolant additive, piston torching with an increase in iron and chromium (the ratio of silicon to aluminum is 1:1).

Potassium: A common coolant additive that is an indication of a cooling system problem, fly ash, road salt, and trace element in fuel.

Sodium: oil additive constituent, coolant additive, road salt, salt water, fly ash, dirt, and grease.

Physical Properties: This section contains the physical data of your oil analysis and is explained as follows:

Water: Measured in % weight, can be an indication of condensation due to a cold running system, a cooling system leak, or outside contamination (severe at greater than 1%).

Glycol: Measured in % weight, is in the formulation of most commercial coolant. Its presence usually indicates some type of coolant leak (Abnormal at greater than 0.6%).

Fuel Dilution: Measured in % weight, can indicate faulty combustion, rich air/fuel mixture when present at between 2% and less than 5%. An injector problem or internal fuel line leak is typically indicated when fuel is detected in high level. This test result is accurate within $\pm 4\%$ for diesel engines and within $\pm 1.5\%$ for gasoline engines.

Oxidation: Measured in absorbance units, is the result of oxygen in the air interacting with the oil at elevated temperatures, and is a normal process as the oil ages. When an engine is operated continuously at high temperatures for extended periods, or when a drain interval is over-extended then values greater than 25 may be observed and an oil change is normally recommended. This test is accurate within ± 4 absorption units.

Nitration: (Applicable for gasoline engines only) measured in absorbance units. Nitration products are formed during the fuel combustion process. The products are often corrosive and can accelerate oil deterioration.

Viscosity (Estimated value): This calculated measurement is an indication of the oil's ability to flow and lubricate the moving parts of the engine or transmission. It's an indication whether the oil is too thick or too thin. As an approximate guide, the viscosity of 15W40 weight diesel engine oil should be between 12.4 and 16.3. The viscosity of 10W30 weight automotive oil should be between 9.3 and 12.4.

The reported viscosity is an estimated number only. This estimated calculated viscosity is accurate within ± 1.5 cSt.

Total Base Number (TBN, Estimated Value): A calculated measurement of the oil's alkaline reserve (additive) package of the oil that is capable of neutralizing acidic contaminants, primarily formed by the adsorption of combustion gases and the aging of the oil. Combustion by-products are the source of the strongest acids, therefore, over-extended oil drain intervals, insufficient additive package, or overheating are causes for a low TBN. Typically, when the TBN is below 3, it is an indication that the oil is no longer serviceable and should be scheduled for an oil change.

Additional Physical Properties (Diesel Engines Only):

Soot: Measured as %soot, is a normal combustion by-product of diesel fuel and appears as a contaminant in the oil. At high levels it can cause an increase in the oil's viscosity (thickening of the oil.) Higher than normal levels can indicate an improper air/fuel ratio, defective air intakes or injectors and can cause deposits, thickening and over-extension of the oil additives.

ACCURACY OF RECOMMENDATIONS IS DEPENDENT ON REPRESENTATIVE OIL SAMPLES AND COMPLETELY CORRECT DATA ON BOTH VEHICLE AND OIL. THIS ANALYSIS IS INTENDED AS AN AID IN PREVENTING MECHANICAL WEAR. NO GUARANTEE, EXPRESSED OR IMPLIED, IS MADE AGAINST FAILURE OF THESE COMPONENTS. ON-SITE ANALYSIS LIABILITY IN ANY CASE IS LIMITED TO THE COST OF THE REPORTED ANALYSIS.

18 Plaintiff Eugene Genchev, by his attorneys, submits his
19 Opposition To Defendant's Motion In Limine No. 2. As grounds and
20 in support thereof, Genchev states as follows:
21
22
23
24
25
26
27
28

INTRODUCTION

This is an action for fraud, negligent misrepresentation, breach of warranties and related claims arising from two new Freightliner vehicles purchased by Plaintiff Eugene Genchev. The Vehicles were manufactured by Defendant Freightliner, LLC. The Vehicles are commonly known as the tractor portions of a tractor/trailer (an "18-wheeler") for trucking large loads over long distances. Plaintiff filed a complaint in this action in the Superior Court for the County of San Diego. The action was removed to this Court by Freightliner.

Freightliner sold Genchev the Vehicles without disclosing the Vehicle's nonconformities that Freightliner had documented in its records. These included, without limitation, damage to one of the vehicle during shipping, an improperly programmed engine control module ("ECM") which caused one of the Vehicles to frequently shutdown, and a structural defect which caused the vehicle cab to lean. Freightliner also failed to disclose the recalls that Freightliner had failed to perform regarding the Vehicles. Plaintiff's statement of detailed facts is set forth in the Pre-Trial Order.

Had Genchev known about the material information Freightliner failed to disclose, he never would have purchased the Vehicles.

ARGUMENT

The full repair history for the Vehicles is necessary and appropriate to support Plaintiff's claims that Freightliner, prior to selling Genchev the Vehicles, knew of the nonconformities the Vehicles later experienced but failed to inform Genchev. On that basis alone, the motion in limine can be denied.

In addition, Freightliner has failed to attach the express warranty. It failed to do so because, for example and without limitation, the express warranty covers the Vehicles' electrical systems, and the Electronic Control Module is part of the electrical system. Freightliner so admitted at the deposition of its person most knowledgeable, Kevin Christianson:

Q: The electronic control module is not part of the engine, is it?

A: Yes.

. . .

Q: It's part of the electrical system which controls the engine, isn't it?

A: Yes. (Christianson Deposition, p. 41, lines 2-3, 10-11).

Furthermore, what is or is not covered by the Vehicle warranties requires a detailed factual analysis of the entire repair history. Freightliner should not be allowed to use a motion in limine to substitute for a motion for summary judgment. The warranties implied by law also cover more than the express warranties. While Freightliner now argues its warranties do not cover the vehicle transmissions, it was

1 Freightliner who issued recalls on the Vehicles, including a
2 recall on the transmission. The recall is known as Freightliner
3 Recall Campaign FL420A dated May, 2004. The National Highway
4 Transportation Safety Administration reference number is #04V-
5 205.

6
7 CONCLUSION

8 Genchev requests the Court deny the Motion In Limine, and
9 for such other and further relief as the Court deems proper.

UNLIMITED CIVIL JURISDICTION

COMES NOW Eugene Genchev ("Genchev" or "Plaintiff"), by and
 through his undersigned attorneys, and alleges as follows:

GENERAL ALLEGATIONS

1. Plaintiff is an individual residing in the county of
 San Diego, California.

2. On information and belief, defendant Freightliner, LLC
 is a limited liability company located at 4747 N. Channel
 Avenue, Portland, Oregon 97217 ("Freightliner").

4. This Court has personal and subject matter jurisdiction over this action and venue is properly placed in this Court pursuant to C.C.P. 395.

FIRST CAUSE OF ACTION
(Breach Of Contract)

5. Plaintiff incorporates by this reference the foregoing paragraphs.

6. On or about August 2, 2004, Plaintiff purchased a 2004 Freightliner CL120 Truck (the "Truck") from an authorized Freightliner distributor.

7. Freightliner expressly warranted the Truck and warranties were implied in the sale of the Truck to Plaintiff.

8. Freightliner expressly warranted the Truck by a written Customer Protection Plan Agreement H052882, the terms of which are incorporated herein by reference.

9. The Truck has experienced nonconformities covered by the express and implied warranties provided by Freightliner.

1 10. Despite due demand, Freightliner has failed and
2 refused to conform the Truck to its warranties.

3 11. Plaintiff has fully complied with any agreement between
4 the parties or his performance was excused.

5 12. Freightliner has materially breached the express and
6 implied warranties regarding the Truck and the Customer
7 Protection Plan.

8 13. As a direct and proximate result of the foregoing, the
9 agreement for the purchase of the Truck has been rescinded and
10 Plaintiff has sustained damages in an amount to be determined at
11 trial together with interest, costs and attorneys' fees.

12
13 SECOND CAUSE OF ACTION
14 (Violations of Commercial Code)

15 14. Plaintiff incorporates by this reference each of the
16 previous paragraphs.

17 15. Freightliner expressly and impliedly warranted the
18 Truck pursuant to the Uniform Commercial Code, California
19 Commercial Code sections 2001, et. seq.

20 16. As set forth herein, Freightliner has breached the
21 express and implied warranties in violation of the Uniform
22 Commercial Code, California Commercial Code sections 2001, et.
23 seq.

24 17. As a direct and proximate result of the foregoing, the
25 agreement for the purchase of the Truck has been rescinded, and
26 Plaintiff has sustained damages in an amount to be determined at
27 trial, plus interest and costs.

THIRD CAUSE OF ACTION
(Breach of Warranties)

18. Plaintiff incorporates by this reference each of the previous paragraphs.

19. Freightliner expressly warranted the Truck.

20. The implied warranties of fitness and merchantability were implied in the sale of the Truck to Plaintiff.

21. The Truck has failed to conform with the express and implied warranties.

22. As a direct and proximate result of the foregoing, the agreement for the purchase of the Truck has been rescinded, and Plaintiff has sustained damages in an amount to be determined at trial, plus interest and costs.

FOURTH CAUSE OF ACTION
(Fraud)

23. Plaintiff incorporates by this reference the foregoing paragraphs.

24. On August 2, 2004 and thereafter, Freightliner, by its authorized representatives and the written materials submitted to Genchev upon which he relied, made representations of material fact which were in fact false. Freightliner falsely represented that the standard, quality and/or grade of the Truck.

25. When Freightliner made the representations, Freightliner knew they were false or Freightliner had no reasonable ground for believing the representations were true.

1 26. Freightliner made the representations with the intent
2 to defraud and induce Plaintiff to purchase the Truck.
3 Plaintiff acted in justifiable reliance upon the truth of the
4 representations.

5 27. On August 2, 2004 and thereafter, Freightliner, by its
6 authorized representatives and the written materials submitted
7 to Genchev upon which he relied, concealed or suppressed
8 material facts regarding the Truck. Freightliner concealed or
9 suppressed the true standard, quality and/or grade of the Truck.

10 28. Freightliner concealed or suppressed material facts
11 Freightliner were duty bound to disclose.

12 29. Freightliner concealed or suppressed material facts by
13 telling Plaintiff other facts to mislead Plaintiff and prevent
14 Plaintiff from discovering the concealed or suppressed facts.

15 30. Freightliner concealed or suppressed facts with the
16 intent to defraud and induce Plaintiff to purchase the Truck.
17 At the time Plaintiff purchased the Truck, he was unaware of the
18 concealed or suppressed facts and would not have taken the
19 action if Plaintiff had known the facts.

20 31. As a direct and proximate result of the foregoing, the
21 agreement for the purchase of the Truck has been rescinded, and
22 Plaintiff has sustained damages in an amount to be determined at
23 trial, plus interest and costs.

24 32. In committing the aforementioned acts and omissions,
25 Freightliner is guilty of fraud, oppression or malice, for which
26 Freightliner should be punished with the imposition of punitive
27 damages.

FIFTH CAUSE OF ACTION
(Negligent Misrepresentation)

33. Plaintiff incorporates by this reference the foregoing paragraphs.

34. The misrepresentations made by Freightliner as set forth herein were made by Freightliner without reasonable grounds for Freightliner to believe the misrepresentations were true.

35. Plaintiff acted in justifiable reliance on the representations of Freightliner.

36. As a direct and proximate result of the foregoing, the agreement for the purchase of the Truck has been rescinded, and Plaintiff has sustained damages in an amount to be determined at trial, plus interest and costs.

SIXTH CAUSE OF ACTION
(Negligence)

37. Plaintiff incorporates by this reference the foregoing paragraphs.

38. Freightliner had a duty to reasonably investigate the condition of the Truck before selling the Truck to Plaintiff.

39. Freightliner had a duty to reasonably inform Plaintiff regarding the condition of the Truck.

40. Freightliner failed to reasonably investigate the condition of the Truck before selling the Truck to Plaintiff.

41. Freightliner failed to reasonably inform Plaintiff regarding the condition of the Truck.

42. Freightliner breached its duties to Plaintiff.

1 43. As a direct and proximate result of the foregoing, the
2 agreement for the purchase of the Truck has been rescinded, and
3 Plaintiff has sustained damages in an amount to be determined at
4 trial, plus interest and costs.

5
6 SEVENTH CAUSE OF ACTION
7 (Unjust Enrichment)

8 44. Plaintiff incorporates by this reference the foregoing
9 paragraphs.

10 45. Plaintiff conferred a benefit on Freightliner by
11 purchasing the Truck.

12 46. The benefit conferred by Plaintiff was accepted and
13 appreciated by Freightliner under such circumstances that it
14 would be inequitable for Freightliner to retain the benefit
15 conferred.

16 47. Freightliner has been unjustly enriched.

17 48. As a direct and proximate result of the foregoing, the
18 agreement for the purchase of the Truck has been rescinded, and
19 Plaintiff has sustained damages in an amount to be determined at
20 trial, plus interest and costs.

21
22 WHEREFORE, Plaintiff prays as follows:

- 23 a) For damages according to proof;
24 b) For rescission and/or restitution;
25 c) For punitive damages;
26 d) For a civil penalty;
27 e) For interest according to proof;
28

1 f) For costs and reasonable attorneys' fees as provided
2 in any agreement between the parties, any statute or otherwise;
3 and

4 g) For such other and further relief as the Court deems
5 just and proper.

EUGENE GENCHEV,)	Case No.: 05-CV-2071 W(JMA)
)	
Plaintiff,)	
)	AMENDED COMPLAINT
vs.)	
)	
FREIGHTLINER, LLC,)	
)	
Defendant.)	
)	
)	
)	

COMES NOW Eugene Genchev ("Genchev" or "Plaintiff"), by and through his undersigned attorneys, and alleges as follows:

GENERAL ALLEGATIONS

1. Plaintiff is an individual residing in the county of San Diego, California.

2. On information and belief, defendant Freightliner, LLC is a limited liability company located at 4747 N. Channel Avenue, Portland, Oregon 97217 ("Freightliner").

3. The true names and capacities, whether individual, corporate, associate or otherwise, of defendants Does 1 through

1 10 are unknown to Plaintiff who therefore sues said defendants
2 by such fictitious names. Plaintiff will amend this complaint
3 to show their true names and capacities when they have been
4 ascertained. Plaintiff alleges that each of the fictitiously
5 named defendants engaged in the actions and omissions
6 hereinafter alleged that each is fully liable for all the
7 damages requested herein.

8
9 STATEMENT OF THE CASE

10
11 The 2004 Freightliner

12 A. The Recall

13 4. On August 2, 2004, Plaintiff purchased a 2004
14 Freightliner CL120 vehicle from an authorized Freightliner
15 distributor (the "2004 Freightliner"). The vehicle is commonly
16 known as the tractor portion of a tractor/trailer (an "18-
17 wheeler") for trucking large loads over long distances.

18 5. At the time Freightliner sold the 2004 Freightliner to
19 Genchev, it knew that it had recalled the vehicle due to a
20 severe transmission nonconformity. The recall is known as
21 Freightliner Recall Campaign FL420A dated May, 2004. The
22 National Highway Transportation Safety Administration reference
23 number is #04V-205.

24 6. Freightliner failed to inform Genchev of the recall
25 prior to his purchase of the 2004 Freightliner. Genchev would
26 not have purchased the 2004 Freightliner had Freightliner not
27 concealed the recall.
28

1 7. Freightliner did not perform the recall work on the
2 2004 Freightliner until May 24, 2005.

3 8. Freightliner is responsible for damage to the 2004
4 Freightliner caused by its failure to timely and properly
5 perform the recall work, and for the resulting reduced value of
6 the 2004 Freightliner.

7 9. Due to Freightliner concealing the recall and failing
8 to timely perform the recall the work, the 2004 Freightliner has
9 experienced other nonconformities. For example, and without
10 limitation, the clutch of the 2004 Freightliner needed repair
11 and replacement in June, 2005. Freightliner has refused to pay
12 for the clutch repair although the need for the repair resulted
13 directly from the failure of Freightliner to perform the recall
14 work and/or due to the Leaning Nonconformity set forth below.

15
16 B. The Breakdown Prior To Genchev's Purchase:

17 10. On December 5, 2003, 8 months prior to Genchev's
18 purchase of the 2004 Freightliner, Freightliner documented on a
19 breakdown report that the vehicle was experiencing
20 nonconformities. The check engine light was illuminated and
21 there was an air leak from under the cab.

22 11. Freightliner determined that the vehicle's ECM had
23 been set up for a fire truck. Freightliner also determined that
24 it did not have the software necessary to address the
25 nonconformity.

26 12. Freightliner failed to inform Genchev of the breakdown
27 report and the nonconformities prior to his purchase of the 2004
28 Freightliner. Genchev would not have purchased the 2004

1 Freightliner had Freightliner not concealed the breakdown report
2 and the nonconformities that existed prior to his purchase of
3 the vehicle.

4
5 C. The Leaning Nonconformity

6 13. The 2004 Freightliner experienced a severe Leaning
7 nonconformity whereby the vehicle began to lean and was not
8 level (the "Leaning Nonconformity").

9 14. In January, 2004, the 2004 Freightliner was taken to
10 an authorized Freightliner repair facility to address the
11 Leaning Nonconformity. Freightliner failed and refused to
12 recognize the Leaning Nonconformity.

13 15. On February 24, 2005, the 2004 Freightliner was again
14 taken to an authorized Freightliner repair facility to address
15 the Leaning Nonconformity. Freightliner finally recognized the
16 Leaning Nonconformity. Freightliner attempted repairs and the
17 2004 Freightliner was out of service for an extended period of
18 time.

19 16. In recognition of the serious nonconformity the 2004
20 Freightliner had experienced, Freightliner extended the basic
21 vehicle warranty by an additional 24 months and 400,000 miles
22 and the vehicle towing coverage was extended an additional 24
23 months and unlimited miles (the "Extended Warranty").

24 17. Freightliner has failed and refused to recognize the
25 Extended Warranty. Genchev is repeatedly told by Freightliner's
26 authorized repair facilities that the original warranty has
27 expired and therefore Genchev must pay for all repairs and
28 towing needed by the 2004 Freightliner. Genchev has paid for

1 repairs covered by the Extended Warranty which were the
2 responsibility of Freightliner to pay.

3 18. The Leaning Nonconformity has produced other
4 nonconformities. For example, and without limitation, the tires
5 of the 2004 Freightliner have worn irregularly due to the
6 vehicle not being level. Freightliner has refused to pay for
7 the tires although the damage to the tires resulted directly
8 from the Leaning Nonconformity.

9
10 The 2005 Freightliner

11 A. The Recall

12 19. On or about March 3, 2005, Plaintiff purchased a 2005
13 Freightliner FLD from an authorized Freightliner distributor
14 (the "2005 Freightliner"). The vehicle is commonly known as the
15 tractor portion of a tractor/trailer (an "18-wheeler") for
16 trucking large loads over long distances.

17 20. In or about June, 2005, Genchev received notice that
18 there had been a recall regarding the engine of the 2005
19 Freightliner.

20 21. On June 6, 2005, the 2005 Freightliner was taken to an
21 authorized Freightliner repair facility.

22 22. Freightliner, by and through its authorized repair
23 facility, represented that work required by the recall (the
24 "Recall Work") was performed on June 14, 2005.

25 23. Genchev has recently discovered that the Recall Work
26 was not performed. For example, and without limitation, the
27 part number on the harness which Freightliner represented it
28 replaced indicates it is the original harness.

1 24. Due to Freightliner's action and omissions, the 2005
2 Freightliner has been operating since June 14, 2006 to present
3 in a nonconforming state so severe that it required a recall.
4 On information and belief, the 2005 Freightliner has been
5 damaged by its continued use in the nonconforming state so
6 severe that it required a recall. Freightliner is responsible
7 for this damage and for the resulting reduced value of the 2005
8 Freightliner.

9 25. Despite demand by Genchev, Freightliner now refuses to
10 perform the Recall Work. Freightliner is refusing to perform
11 the Recall Work in retaliation for Genchev's pursuit of this
12 action.

13 26. As a direct and proximate result of Freightliner's
14 failure to perform the Recall Work, the 2005 Freightliner has
15 experienced other nonconformities. For example, and without
16 limitation, the 2005 Freightliner ceased operating in August and
17 September, 2005 due to nonconformities involving the ECM at the
18 battery. The recall specifically refers to reprogramming the
19 ECM to the latest calibration. Freightliner wrongfully refused
20 to pay for the resulting towing and repair and replacement
21 involving the battery.

22
23 Freightliner's Partial Payment Of Warranty Repairs

24 27. On November 13, 2005, the 2005 Freightliner
25 experienced a nonconformity in the fan drive which also caused a
26 nonconformity in the radiator.

1 28. Freightliner admitted that the fan drive nonconformity
2 was its responsibility, but failed and refused to pay for the
3 repairs needed to the radiator.

4 29. Freightliner wrongfully failed and refused to pay for
5 the repairs need to the radiator.

6 30. Genchev has paid for repairs which were the
7 responsibility of Freightliner to pay.

8
9 FIRST CAUSE OF ACTION
10 (Breach Of Contract)

11 31. Plaintiff incorporates by this reference the foregoing
12 paragraphs.

13 32. The 2004 Freightliner and 2005 Freightliner are
14 collectively referred to herein as the Vehicles.

15 33. Freightliner expressly warranted the Vehicles and
16 warranties were implied in the sale of the Vehicles to
17 Plaintiff.

18 34. The Vehicles have experienced nonconformities covered
19 by the express and implied warranties provided by Freightliner.

20 35. Despite due demand, Freightliner has failed and
21 refused to conform the Vehicles to their warranties.

22 36. Plaintiff has fully complied with any agreement between
23 the parties or his performance was excused.

24 37. Freightliner has materially breached the express and
25 implied warranties regarding the Vehicles.

26 38. As a direct and proximate result of the foregoing, the
27 agreements for the purchase of the Vehicles have been rescinded
28 and Plaintiff has sustained damages in an amount to be

1 determined at trial together with interest, costs and attorneys'
2 fees.

3
4 SECOND CAUSE OF ACTION
5 (Violations of Commercial Code)

6 39. Plaintiff incorporates by this reference each of the
7 previous paragraphs.

8 40. Freightliner expressly and impliedly warranted the
9 Vehicles pursuant to the Uniform Commercial Code, California
10 Commercial Code sections 2001, et. seq.

11 41. As set forth herein, Freightliner has breached the
12 express and implied warranties in violation of the Uniform
13 Commercial Code, California Commercial Code sections 2001, et.
14 seq.

15 42. As a direct and proximate result of the foregoing, the
16 agreements for the purchase of the Vehicles have been rescinded,
17 and Plaintiff has sustained damages in an amount to be
18 determined at trial, plus interest and costs.

19
20 THIRD CAUSE OF ACTION
21 (Breach of Warranties)

22 43. Plaintiff incorporates by this reference each of the
23 previous paragraphs.

24 44. Freightliner expressly warranted the Vehicles.

25 45. The implied warranties of fitness and merchantability
26 were implied in the sale of the Vehicles to Plaintiff.

27 46. The Vehicles have failed to conform with the express
28 and implied warranties.

1 47. As a direct and proximate result of the foregoing, the
2 agreements for the purchase of the Vehicles have been rescinded,
3 and Plaintiff has sustained damages in an amount to be
4 determined at trial, plus interest and costs.

5
6 FOURTH CAUSE OF ACTION
7 (Fraud)

8 48. Plaintiff incorporates by this reference the foregoing
9 paragraphs.

10 49. As set forth in detail above, Freightliner, by its
11 authorized representatives and the written materials submitted
12 to Genchev upon which he relied, made representations of
13 material fact which were in fact false. Freightliner falsely
14 represented the standard, quality and/or grade of the Vehicles.

15 50. When Freightliner made the representations,
16 Freightliner knew they were false or Freightliner had no
17 reasonable ground for believing the representations were true.

18 51. Freightliner made the representations with the intent
19 to defraud and induce Plaintiff to purchase the Vehicles.
20 Plaintiff acted in justifiable reliance upon the truth of the
21 representations.

22 52. As set forth in detail above, Freightliner, by its
23 authorized representatives and the written materials submitted
24 to Genchev upon which he relied, concealed or suppressed
25 material facts regarding the Vehicles. Freightliner concealed
26 or suppressed the true standard, quality and/or grade of the
27 Vehicles.

1 53. Freightliner concealed or suppressed material facts
2 Freightliner were duty bound to disclose.

3 54. Freightliner concealed or suppressed material facts by
4 telling Plaintiff other facts to mislead Plaintiff and prevent
5 Plaintiff from discovering the concealed or suppressed facts.

6 55. Freightliner concealed or suppressed facts with the
7 intent to defraud and induce Plaintiff to purchase the Vehicles.

8 56. At the time Plaintiff purchased the Vehicles, he was
9 unaware of the concealed or suppressed facts and would not have
10 taken the action if Plaintiff had known the facts.

11 57. As a direct and proximate result of the foregoing, the
12 agreements for the purchase of the Vehicles have been rescinded,
13 and Plaintiff has sustained damages in an amount to be
14 determined at trial, plus interest and costs.

15 58. In committing the aforementioned acts and omissions,
16 Freightliner is guilty of fraud, oppression or malice, for which
17 Freightliner should be punished with the imposition of punitive
18 damages.

19
20 FIFTH CAUSE OF ACTION
21 (Negligent Misrepresentation)

22 59. Plaintiff incorporates by this reference the foregoing
23 paragraphs.

24 60. The misrepresentations made by Freightliner as set
25 forth herein were made by Freightliner without reasonable
26 grounds for Freightliner to believe the misrepresentations were
27 true.
28

1 61. Plaintiff acted in justifiable reliance on the
2 representations of Freightliner.

3 62. As a direct and proximate result of the foregoing, the
4 agreements for the purchase of the Vehicles have been rescinded,
5 and Plaintiff has sustained damages in an amount to be
6 determined at trial, plus interest and costs.

7
8 SIXTH CAUSE OF ACTION
9 (Negligence)

10 63. Plaintiff incorporates by this reference the foregoing
11 paragraphs.

12 64. Freightliner had a duty to reasonably investigate the
13 condition of the Vehicles before selling the Vehicles to
14 Plaintiff.

15 65. Freightliner had a duty to reasonably inform Plaintiff
16 regarding the condition of the Vehicles.

17 66. Freightliner had a duty to reasonably repair the
18 Vehicles.

19 67. Freightliner failed to reasonably investigate the
20 condition of the Vehicles before selling the Vehicles to
21 Plaintiff.

22 68. Freightliner failed to reasonably inform Plaintiff
23 regarding the condition of the Vehicles.

24 69. Freightliner failed to reasonably repair the Vehicles.

25 70. Freightliner breached its duties to Plaintiff.

26 71. As a direct and proximate result of the foregoing, the
27 agreements for the purchase of the Vehicles have been rescinded,
28 and Plaintiff has sustained damages in an amount to be
determined at trial, plus interest and costs.

SEVENTH CAUSE OF ACTION
(Unjust Enrichment)

72. Plaintiff incorporates by this reference the foregoing paragraphs.

73. Plaintiff conferred a benefit on Freightliner by purchasing the Vehicles.

74. The benefit conferred by Plaintiff was accepted and appreciated by Freightliner under such circumstances that it would be inequitable for Freightliner to retain the benefit conferred.

75. Freightliner has been unjustly enriched.

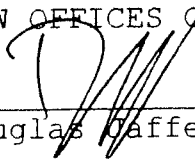

76. As a direct and proximate result of the foregoing, the agreements for the purchase of the Vehicles have been rescinded, and Plaintiff has sustained damages in an amount to be determined at trial, plus interest and costs.

WHEREFORE, Plaintiff prays as follows:

- a) For damages according to proof;
- b) For rescission and/or restitution;
- c) For punitive damages;
- d) For a civil penalty;
- e) For interest according to proof;
- f) For costs and reasonable attorneys' fees as provided in any agreement between the parties, any statute or otherwise; and
- g) For such other and further relief as the Court deems just and proper.

EXHIBIT 3

Original

UNITED STATES DISTRICT COURT
SOUTHERN DISTRICT OF CALIFORNIA

EUGENE GENCHEV,

Plaintiff,

vs.

FREIGHTLINER, LLC,

Defendant.

Case No.: 05-CV-2071

JURY VERDICT

We answer the questions submitted to us as follows:

WARRANTIES

I. Express Warranties

A. 2004 Freightliner Truck

1. Did Freightliner, LLC represent to Eugene Genchev by a statement of fact that the 2004 Freightliner truck was covered by express warranties?

☒ Yes ☐ No

If your answer to question 1 is yes, then answer question 2. If you answered no, answer question 5.

2. Did Eugene Genchev rely on Freightliner, LLC's statement of fact in deciding to purchase and/or use the 2004 Freightliner truck?

✓ Yes No

If your answer to question 2 is yes, then answer question 3. If you answered no, answer question 5.

3. Did the 2004 Freightliner truck fail to perform as represented?

☒ Yes ☐ No

If your answer to question 3 is yes, then answer question 4. If you answered no, answer question 5.

4. Was the failure of the 2004 Freightliner truck to perform as represented a substantial factor in causing harm to Eugene Genchev?

✓ Yes No

Answer question 5.

B. 2005 Freightliner Truck

5. Did Freightliner, LLC represent to Eugene Genchev by a statement of fact that the 2005 Freightliner truck was covered by express warranties?

✓ Yes _____ No

If your answer to question 5 is yes, then answer question 6. If you answered no, answer question 9.

6. Did Eugene Genchev rely on Freightliner, LLC's statement of fact in deciding to purchase and/or use the 2005 Freightliner truck?

✓ Yes No

If your answer to question 6 is yes, then answer question 7. If you answered no, answer question 9.

7. Did the 2005 Freightliner truck fail to perform as represented?

✓ Yes No

If your answer to question 7 is yes, then answer question 8. If you answered no, answer question 9.

8. Was the failure of the 2005 Freightliner truck to perform as represented a substantial factor in causing harm to Eugene Genchev?

✓ Yes _____ No _____

Answer question 9.

II. Implied Warranties

A. 2004 Freightliner Truck

9. Did Eugene Genchev buy a 2004 Freightliner truck from Freightliner, LLC?

	✓ Yes	No
1. Do you have a current driver's license?		
2. Do you have a current vehicle registration?		
3. Do you have a current insurance policy?

13. Do you have a current vehicle safety recall status?		
14. Do you have a current vehicle safety recall status?		
15. Do you have a current vehicle safety recall status?		
16. Do you have a current vehicle safety recall status?		
17. Do you have a current vehicle safety recall status?		
18. Do you have a current vehicle safety recall status?		
19. Do you have a current vehicle safety recall status?		
20. Do you have a current vehicle safety recall status?		

If your answer to question 9 is yes, then answer question 10. If you answered no, answer question 14.

1
2 10. Was Freightliner, LLC in the business of selling Freightliner Class 8
3 trucks?

4
5 ☒ Yes ☐ No

6 If your answer to question 10 is yes, then answer question 11. If you
7 answered no, answer question 14.

8
9 11. Did the sale of the 2004 Freightliner truck include notice that would
10 have made a buyer aware that it was being sold without any representations
11 relating to the quality that a buyer would expect?

12
13 ☐ Yes ☒ No

14 If your answer to question 11 is no, then answer question 12. If you
15 answered yes, answer question 14.

16
17 12. Was the 2004 Freightliner truck fit for the ordinary purposes for
18 which such goods are used?

19
20 ☐ Yes ☒ No

21 If your answer to question 12 is no, then answer question 13. If you
22 answered yes, answer question 14.

23
24 13. Was the failure of the 2004 Freightliner truck to have the expected
25 quality a substantial factor in causing harm to Eugene Genchev?

26
27 ☒ Yes ☐ No

28 Answer question 14.

1 B. 2005 Freightliner Truck

2 14. Did Eugene Genchev buy a 2005 Freightliner truck from Freightliner,
3 LLC?

4
5 ✓ Yes No

6 If your answer to question 14 is yes, then answer question 15. If you
7 answered no, answer question 19.

8
9 15. Was Freightliner, LLC in the business of selling Freightliner Class 8
10 trucks?

11
12 ✓ Yes No

13 If your answer to question 15 is yes, then answer question 16. If you
14 answered no, answer question 19.

15
16 16. Did the sale of the 2005 Freightliner truck include notice that would
17 have made a buyer aware that it was being sold without any representations
18 relating to the quality that a buyer would expect?

19
20 Yes ✓ No

21 If your answer to question 16 is no, then answer question 17. If you
22 answered yes, answer question 19.

1 17. Was the 2005 Freightliner truck fit for the ordinary purposes for
2 which such goods are used?

3
4 _____ Yes _____ ☒ No

5 If your answer to question 17 is no, then answer question 18. If you
6 answered yes, answer question 19.

7
8 18. Was the failure of the 2005 Freightliner truck to have the expected
9 quality a substantial factor in causing harm to Eugene Genchev?

10
11 ☒ Yes _____ No

12 Answer question 19.

13
14
15 FRAUD

16 19. Did Freightliner, LLC intentionally fail to disclose an important fact
17 that Eugene Genchev did not know and could not have reasonably discovered
18 regarding the 2004 Freightliner truck?

19
20 ☒ Yes _____ No

21 If your answer to question 19 is yes, then answer question 20. If you
22 answered no, answer question 23.

20. Did Freightliner, LLC intend to deceive Eugene Genchev by concealing the fact?

_____ Yes ²⁰ ~~11~~ _____ No ²¹ ~~11~~
If your answer to question ~~21~~ is yes, then answer question ~~22~~. If you
no, answer question 23.

21. Did Eugene Genchev rely on Freightliner, LLC's deception and was such reliance reasonable under the circumstances?

_____ ☒ Yes _____ ☐ No

If your answer to question ~~22~~²¹ is yes, then answer question ~~23~~²². If you answered no, answer question 23.

22. Was Freightliner, LLC's concealment a substantial factor in causing harm to Eugene Genchev?

✓ Yes No

Answer question 23.

NEGLIGENT MISREPRESENTATION

23. Did Freightliner, LLC made a false representation of an important fact to Eugene Genchev regarding the 2004 Freightliner truck?

☒ Yes
 ☐ No

If your answer to question 23 is yes, then answer question 24. If you answered no, answer question 28.

1 24. Did Freightliner, LLC have reasonable grounds for believing the
2 representation was true when it made it?

3
4 _____ Yes *NO* _____ ☒ No

5 If your answer to question 24 is *YES* ~~yes~~, then answer question 25. If you
6 answered ~~no~~, answer question 28.

7
8 25. Did Freightliner, LLC intend that Eugene Genchev rely on the
9 representation?

10
11 ☒ Yes _____ No

12 If your answer to question 25 is yes, then answer question 26. If you
13 answered no, answer question 28.

14
15 26. Did Eugene Genchev reasonably rely on the representation?

16
17 ☒ Yes _____ No

18 If your answer to question 26 is yes, then answer question 27. If you
19 answered no, answer question 28.

20
21 27. Was Eugene Genchev's reliance on Freightliner LLC's representation
22 a substantial factor in causing harm to Eugene Genchev?

23
24 ☒ Yes _____ No

25 Answer question 28.
26
27
28

28. What are Eugene Genchev's damages?

Diminished value \$ 12,500

Other damages \$ 26,408.62

If you answered yes to all of questions 19, 20, 21 and 22 or if you answered yes to all of questions 23, 24, 25, 26 and 27, then answer question 29.

29. What percentage of responsibility for Eugene Genchev's harm due to any fraudulent concealment or negligent misrepresentation do you assign to:

Freightliner, LLC 100 %

Albuquerque Freightliner %

PROOF OF SERVICE

I am employed in the County of Los Angeles, State of California. I am over the age of 18 and not a party to the within action. My business address is 444 South Flower Street, Suite 1100, Los Angeles, California 90071.

On June 13, 2008, I served the within document(s) described as:

REQUEST FOR JUDICIAL NOTICE

on the interested parties in this action as stated on the attached mailing list.

- ☒ (BY MAIL) By placing a true copy of the foregoing document(s) in a sealed envelope addressed as set forth on the attached mailing list. I placed each such envelope for collection and mailing following ordinary business practices. I am readily familiar with this Firm's practice for collection and processing of correspondence for mailing. Under that practice, the correspondence would be deposited with the United States Postal Service on that same day, with postage thereon fully prepaid at Los Angeles, California, in the ordinary course of business. I am aware that on motion of the party served, service is presumed invalid if postal cancellation date or postage meter date is more than one day after date of deposit for mailing in affidavit.
- ☐ (BY FAX) By transmitting a true copy of the foregoing document(s) via facsimile transmission from this Firm's sending facsimile machine, whose telephone number is (213) 533-5444, to each interested party at the facsimile machine telephone number(s) set forth on the attached mailing list. Said transmission(s) were completed on the aforesaid date at the time stated on the transmission record issued by this Firm's sending facsimile machine. Each such transmission was reported as complete and without error and a transmission report was properly issued by this Firm's sending facsimile machine for each interested party served. A true copy of each transmission report is attached to the office copy of this proof of service and will be provided upon request.

I certify that I am employed in the office of a member of the bar of this Court at whose direction the service was made.

Executed on June 13, 2008, at Los Angeles, California.

I declare under penalty of perjury that the foregoing is true and correct.
